#### **ANDREW PETERSON**

Andrew Peterson was born on October 20, 1818, in Vastra Ryd parish, in the Province of Östergotland, in southern Sweden. His parents, Petter Jonsson and Ingrid Samuelsdotter, were farmers in Sjoarp. Andrew worked at home and as a farm hand on other farms in the area, but after his father's death in 1846 he moved back to Sjoarp to take over the farm.

In the spring of 1850 Andrew left Sweden for North America. He did not go alone, however. His sister Gustava and fourteen locals from Vastra Ryd parish went with him. There were also people from neighboring parishes in Ydre in the group of emigrants. In Gothenburg, Andrew and the group embarked on a ship called *Minona*, leaving the port on May 19, 1850. Andrew would never again see his native country. The journey across the Atlantic was difficult, with storms, seasickness, and even casualties among the passengers. We know this thanks to Andrew's diary from the crossing—a diary that has been kept for posterity. *Minona* and most of her passengers survived the hardships and sailed into the port of Boston on July 2, 1850.

Peterson initially settled in Iowa. In 1855 he traveled north to Minnesota and bought a claim for the farmstead. He immediately planted potatoes and cleared the ground for a log shanty. In 1858, he built a larger cabin in anticipation of his marriage. By the mid-1860s, a growing family necessitated a larger residence and he began work on his final home. In 1870 he moved into the unfinished house, which took four years to complete and still stands relatively unchanged today.

Peterson was active in the Minnesota Horticultural Society and his work in developing apple varieties that would withstand the harsh Minnesota climate was his major agricultural accomplishment. At its height, Peterson's orchard grew over 200 varieties of apples. He hosted leading horticultural experts from as far away as Ottawa, Canada. His farm became an early horticulture research station, the precursor to the Horticulture Research Center at the University of Minnesota Landscape Arboretum.

Peterson was a founding member of the Scandia Baptist Church, with the first service being held in his home. A church building was erected not long after, near current-day Island View Golf Course. The Scandia Cemetery, where Peterson is buried, is located on the property. While the church structure was relocated to the grounds of Bethel College, the congregation still remains at Oakwood Community Church just outside Waconia.

Andrew Peterson kept a daily diary for forty-eight years, from 1850 to 1898. He would continue writing in this diary until two days before his death, on March 31, 1898. Many of the early parts from his time in Iowa were unfortunately lost. Prior to 1854, all that exists is a brief excerpt of the voyage to America. Upon his death, Peterson's family donated his diaries and papers to the Minnesota Historical Society.

Fifty years after his death, this diary was utilized by the Swedish novelist Vilhelm Moberg for his novels about Swedish emigrants entitled *The Emigrants* (1951), *Unto a Good Land* (1954), *The Settlers* (1961), and *The Last Letter Home* (1961). Two acclaimed movies were later made from these books, *The Emigrants* (1971) and *The New Land* (1972). The story of Andrew Peterson is carefully documented in the book *Andrew Peterson and the Scandia Story* by Josephine (Jo) Mihelich. It continues to be a primary source for anyone looking for early, rural Minnesota farm history. As described by Carlton C. Qualey in an article in the Minnnesota Historical Society Collection from the summer of 1972, the legacy of Andrew Peterson is that "he not only mastered diversified farming but also became a leading horticulturist of the entire Upper Mississippi River Valley."

#### THE PETERSON FAMILY

Andrew Peterson was almost 40 years old when he married Elsa Ingeman, 23, from the nearby King Oskar's settlement, now known as East and West Union in Carver County, Minnesota. Together, they had nine children: Ida Gustava, George Andrew Sture, John Axel, Charles "Carl" Jacob, Frank Joseph, Emma Rebecca, Anna Isabelle, Josephine Ruth, and Oskar Benjamin.

After Andrew died in 1898, Elsa continued to live on the farm until her death in 1922. Elsa's obituary in the *Waconia Patriot* expressed her legacy (Mihelich 1984):

With the passing of Mrs. Andrew Peterson, the last representative of that wonderful race of men and women that challenged the wilderness in the fifties has passed from our circle....That generation accepted the call into the wilderness. Undaunted and unafraid they took up the task of making that wilderness the abode of civilized man.

Of Elsa and Andrew's nine children, only George "Sture" and Josephine married, and neither couple had children. Sture was 32 when he married Ada Taper in 1893 and Josephine was 33 when she married Nels Carlson in 1908. Josephine died several months later. While it may seem strange to us that only two of nine children married, it was not uncommon in the 1800s.

Every Peterson child was very involved in farming, either on his/her own farm, on the family farm, or on both. The Peterson's eldest son, Sture, was 31 when he left home with his brother Carl to begin farming near the city of Maynard in Chippewa County, Minnesota. By 1897, Carl owned a farm near his brother, while sisters Josephine and Emma kept house for him. Frank joined his brothers in Maynard, to help out at their farms. He later returned to Waconia and worked the family farm with his brothers Axel and Oskar, who had never left. Anna died at 17, in 1889. Ida passed away in 1900 and Frank in 1921. Carl would leave Maynard and return to Waconia to help on the family farm. Sture passed away in 1928, on his farm near Maynard. Axel followed in 1930. Carl and Oskar died within months of each other in 1941.

Andrew and Elsa's last surviving child, Emma, died May 17, 1943. Emma had continued to live on the family farm until her death. She willed her parents' farm to Sarah Peterson, a neighbor (not related) who had cared for Emma in the later part of her life. The family name survives in the descendants of Andrew Peterson's siblings.

#### HORTICULTURE AND RECOGNITION

Although Peterson had been planting apples yearly since 1857, it wasn't until 1883 that his work came to the attention of the Minnesota Horticultural Society. On August 28, 1883, the secretary of the Society, Oliver Gibbs, visited Peterson's farm. In a report to the Society's board, he stated, "The fruit was not ripe, but it was even then very handsome. They were the first root-grafted Russians I had seen – and the first winter keeping Russians I had heard of in the state." Another member of the Society's Executive Board, F.G. Gould, stated: "Some of these trees are the hardiest I have seen in Minnesota . . . I believe we have got something here that cares nothing for our cold winters or our hot summers."

Peterson showed these apples not only at the American Pomological Society meeting in Philadelphia, but also at the 1884 World's Industrial Exposition in New Orleans. Carver County's fruit growers, among them Theodore Bost, Charles Luedloff, and Andrew Peterson, brought Carver County horticulture to state and national acclaim. As recorded in the 1884 annual report of the State Horticultural Society:

Carver County is one of the "Big Woods" counties, one of the richest in the State, and is one of the best fruit regions in the Northwest. In 1884, there were more than 20,000 apple trees in Carver County, producing liberally. It was the superb fruit of this county that made it possible for the State Horticultural Society to make so fine an exhibit at the meeting of the American Pomological Society, at Philadelphia, in 1883, where our apples were awarded the highest prize (the Wilder medal), in competition with every other state in the union.

Peterson spoke at the Minnesota Horticultural Society's annual meeting in 1884, describing his early labors, successes, and failures. During this speech, he highlighted his success with Astrakhan apples in the following quote: "but without success until I began with the Russian varieties, which seem hardy enough for Minnesota climate. Of the seventy other varieties I have tried, all blighted or sun-scalded more or less when they commenced to bear."

At its height, Peterson's orchard grew more than 200 apple varieties, and he hosted leading horticultural experts from as far away as Ottawa, Canada. These experts not only inspected his orchard, but took ideas from his methods and practices to share. His horticultural work included grafting, working with scions, packing stock to ship to customers, hoeing around his trees, picking caterpillars off the trees, smearing young trees with pieces of liver to ward off rabbits, and spreading ash in the soil around the base of the trees.

At its annual meeting in January of 1888, the Minnesota Horticultural Society honored Peterson's achievements and contributions to the apple industry and horticulture with an honorary life membership. His work is perhaps best described by Professor Samuel Bowdlear Green, who summarized it thus:

His work, in fact, amounted to his carrying on at his own expense and in a most careful way for more than a quarter of a century what amounted to a private experiment station. He proved to the people of Minnesota that apples could be profitably grown in this section; that some varieties imported from Russia were especially adapted to this section and could be depended upon. He also showed that many of them were worthless, and his labor sifting the good from the bad Russian varieties of apples has been very helpful and valuable.

#### **HISTORY OF THE FARMSTEAD**

Andrew and Elsa's last surviving child, Emma, died May 17, 1943. She had willed her parents' farm to Sarah Peterson, a neighbor who had cared for Emma in the later part of her life. Sarah Peterson and her family lived and worked the farm, maintaining the buildings and historic artifacts, until the late 1970s. At that point, a collection of family artifacts, papers, photographs, and memorabilia from both Sarah Peterson's and Andrew Peterson's families were donated to the Carver County Historical Society. Sarah sold the farm to an investment group that intended to develop the property.

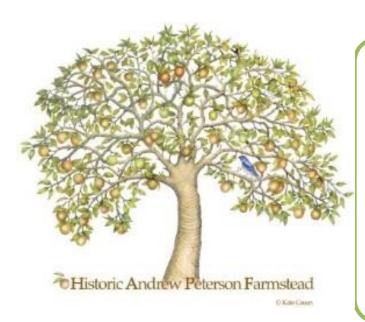

When this didn't happen, the farm was sold to Ward and Georgene Holasek in 1977. The Holaseks loved the farm and its history deeply. In 1978, it was placed on the National Register of Historic Places (NRHP). The fall of that same year, Ward and Georgene hosted a community celebration announcing the NRHP award. Wooden apples were made to commemorate the event.

It was also during this time that Josephine Mihelich began collecting oral histories and memorabilia for the writing of her book, *Andrew Peterson and the Scandia Story*. These records have also become part of the collections of the Carver County Historical Society.

On December 6, 2013, Ward Holasek died, leaving his portion of the Peterson farm to the Carver County Historical Society. As of 2015, the CCHS has been the legal owner of the 12.17 acres of historic property, including all extant Peterson farm structures. The farm will be fully restored or rehabilitated for public use.

The Mission and Vision of the CCHS regarding the Andrew Peterson farm is to preserve and interpret the Andrew Peterson farm through the lens of Minnesota's rich immigrant and agricultural history. The farm and historically significant diaries of Andrew Peterson will be used to encourage visitors of all ages to discover our diverse heritage and to understand how the past shapes the present – and the future.

~ CCHS Board of Directors, May 7, 2015

Designed by Kate Green, this is more than just a logo.

The shape of the tree is that of the Astrakhan apple, as are the blush-colored apples. This was Peterson's favored variety. Notice the two deep red apples – those represent Andrew and Elsa Peterson. Then look closely, and you will spot 9 green or unripe apples, representing the 9 Peterson children.

Lastly, we have the Bluebird of Happiness, representing Ward Holasek, who willed the farm to the Historical Society, so that it could be preserved and used for education and the public use.

#### INTRODUCTION: ROGER MCKNIGHT

Andrew Peterson (1818-1898) was a man of humble origins in southern Sweden, who made a name for himself in America through hard work and attention to detail. Peterson reached Iowa in 1850 by Atlantic sailing ship and American river and canal barges and then settled in Minnesota in 1855. In the years following he created a prosperous homestead in south-central Minnesota. This accomplishment was noteworthy, but it likely would have been forgotten to historians and commoners alike had Peterson not kept a faithful written record in Swedish of his life on the American frontier. His extant diary, beginning in 1854 and continuing for 44 years until two days before his death. He made daily notations in his journals about farm work, family matters, and local or church events.

With little formal education and no literary merits, Peterson created in his journal entries what the famed Swedish novelist Sven Delblanc termed *en poesi i sak*, that is, a poetry of everyday life. Writing in store-bought ledger books, he described his and his Swedish relatives' and friends' Atlantic crossing, his one-year apprenticeship in Iowa apple orchards, the riverboat journey north to Minnesota, and his four decades of homesteading near present-day Waconia, Minnesota. A faithful churchgoer, he left only Sundays free of notations. Vilhelm Moberg wrote that a few Swedish farmers through history kept copious diaries but none to equal those of Peterson. The Paxton family in medieval England may have kept a more complete record of family history than the Swede Peterson, but no one in Swedish or Swedish-American annals kept a more consistent record of sowing and harvesting crops, slaughtering livestock, building and maintaining farm structures, or dealing with family and local community than he accomplished. As over a century has passed since Peterson's death, a few notes about the journals' continued relevance are in order. Why make them available now in English to 21<sup>st</sup>-century researchers, historians, and general readers, denizens of our fast-paced world?

The clearest answer is that the number of Minnesotans able to read Swedish has dwindled considerably since Peterson's time. In short, Peterson's journals need to be available to the English-speaking world, as a record of our past. There is much to be found in the hundreds of pages he filled with his sometimes uncertain handwriting. Rural historians seeking information about farm routines and mores, agriculturists looking for patterns of 19<sup>th</sup>-century crop-raising, literary researchers searching for yet more information on the writer Vilhelm Moberg's use of Peterson's journals, linguists studying Peterson's mixing of Swedish and English vocabulary (his so-called *svenglish*), and Minnesota historians researching the Dakota War of 1862 (which directly affected Peterson and his family) or voting, ethnic, and religious practices on the frontier but lacking reading knowledge of Swedish, all will find this present edition of Andrew Peterson's journals vital to their work. General readers will be sure to find this edition offers useful first-hand insights into how their Minnesota forebears lived.

Andrew Peterson's journals cover an eventful epoch. They begin four years before Minnesota became a state in 1858. They continue through the aforementioned Dakota War of 1862 (during which Peterson's Swedish community took refuge on an island in Lake Waconia); past the Civil War (which Peterson's age exempted him from serving in); through the birth of his and wife Elsa's nine children (all of whom died childless); into mentioning his publishing of articles through the University of Minnesota on his importing of apple seeds from Russia that withstood Minnesota's wintry climate; and of course the coming of old age (during which his sons took over the farm).

As Vilhelm Moberg noted (in my paraphrase), Andrew Peterson was a recorder, not an analyst or a sentimentalist. For example, he tells of marrying Elsa late one afternoon after spending the morning doing farm chores. Those looking for (sometimes seemingly endless) details of calving and slaughtering, sowing and reaping, hammering and sawing will be amply rewarded. Those wishing to find how pioneers thought and felt will find few existentialist outpourings. However, those who seek long enough will find. At one time the pioneer spirit struck Peterson and he and his sons thought of moving farther westward to South Dakota, only to drop the subject, in telling silence, after viewing the treeless prairies there. At another point, Peterson wrote of accompanying fellow congregation members to calm a Swedish neighbor, named Hanson, because "he had beaten his wife." At yet another point Peterson wrote of the death of one of his daughters with the explanation, extreme for him, that "this was a hard blow for my feelings." No reader will finish Peterson's journals at one sitting, but taken as a whole they contain much food for thought.

Architectonically, the journals exist in three parts. Part one records the younger years, when Peterson claimed land and made it productive. This part is written in his clear southern Swedish. Part two tells of his prosperous America years and his family life, as English vocabulary intrudes on his Swedish (for example, it takes a Swede with good English to understand that Peterson means *he piled bricks* when he writes *han pilade brick)*. Part three records Peterson's old age. His handwriting is shaky; he becomes increasingly reliant on patent medicines; and his back troubles lay him low. His last notation states that March 29, 1898, was *lovely out but not warm*. Two days later he died peacefully in his sleep.

Elsa outlived Andrew by 20 years, but she never wrote, so we know less about her. For women readers, maybe that's a message. Write your history.

#### **CREDIT AND THANKS**

There are many people who contributed their time and expertise to making this project a success, and helped see it through to completion.

Thank you to the Minnesota Arts and Cultural Heritage (Legacy) grants program and the Swedish Council of America for the grant funding that made this possible.

Thank you to translators Mathilda Fromentine, Sharon Eklund, and Carolyn Spargo for the months of dedicated time translating.

Thank you to Amy Farrar and Marilyn Gahm for the editing and indexing of this massive volume of Peterson's words.

Thank you to Wendy Petersen-Biorn for her assistance with the creation of a glossary.

Thank you to all the staff, board, and volunteers at the Carver County Historical Society who contributed their efforts to editing, creating glossaries, writing text and introductions, and assembling family histories.

Thank you to Lena Kindstedt for her genealogical research into the Ingeman/Anderson and Peterson families that was used to create the family trees appearing in the appendix.

Thank you to Roger McKnight for writing the introduction to this work.

Thank you to Jan Hermelin and the staff and volunteers of the Andrew Petersonsällskapet (Swedish Andrew Peterson Society), for their support and use of reference materials.

Thank you to Josephine (Jo) Mihelich for her research into the Scandia community, and her book *Andrew Peterson and the Scandia Story*.

Thank you to the Minnesota Historical Society (MNHS) Gale Family Library for their dedicated preservation efforts of the Andrew Peterson family papers, for their generous access to the original diary, and for the microfilming of said diary.

#### IN HONOR OF

Emma Ahlquist, who compiled the first translation of this massive work in the 1920s, and whose work we wish to honor, even as copyright laws necessitate a new translation to allow publication.

Andrew Peterson and his family for the creation of such a massive amount of first-hand pioneer history and to his descendants for recognizing its value and ensuring its preservation at the Minnesota Historical Society.

# ON A SEA TRIP FROM GOTHENBURG/ THE VOYAGE FROM GOTHENBURG TO BOSTON IN NORTH AMERICA

# BELONGS TO ANDERS PETTERSSON FROM SJOARP

#### 1850

## May

- 19 We continued our trip from Gothenburg, and had northeast wind, and it went very fast. We sailed Gota Alv [the Gota River] to its end, and then out on the sea, and through the straits [channels] of Skagerack, and saw a little of Gylland, and all its churches. In the evening most of the passengers had got the sea sickness, and it became slippery around the rail. They also were not used to the rocking; we also had experienced that on Lake Malar [Malaren], before we arrived in Gothenburg.
- 20 We had an east wind, so that the brig went significantly faster. Also saw Norway. The sea sickness continued for most of all.
- 21 Almost calm weather, but the brig rocked a lot because of the movement of the water. The seasickness started to decrease. Also Skagerack to end, and saw a little of Far Sunds Udde [Point] in Norway, this was the last thing we got to see of our old Scandinavia.
- 22 Good wind, but weak, did not see land.
- 23 Good eastern wind, saw Scottish islands on the left and Shetlands to the right. The sea sickness is gone for the most.
- 24 Same wind as the day before goes pretty fast, nice right route. Saw Scotland finally, and came out in the big Atlantic Ocean. At night we saw little islands Sulisker and Rona.
- 25 Same good wind, and a strong storm. The waves are considerable, and we are in reasonably general health.
- 26 The wind northwest, the brig backed, or plying evenly. The captain does not do any prayers with us, but we do. The crew itself also to prayers. The captain does not need a God because he is that himself.
- 27 The wind southwest, no notes but in the evening, saw big fishes (whales).
- 28 The wind northwest, and a strong storm.
- 29 The wind same as the day before, no notes of/for the day.
- 30 Westerly wind, the brig cruised evenly but did not make it forward, because it was a terrible storm. At night a big storm cloud came, and it rained and roared/sounded awfully, and was so bad the water blew up on the deck, and we were soaked with

water up to our knees.

#### June

- 1 The wind westerly, the brig goes slowly, no notes so far.
- 2 The wind same as the day before, beautiful weather. Late in the evening it became a storm, including big waves and one big one struck down on the deck so most people got scared/most stuff got ruined.
- 3 The wind same as the day before except a strong storm in the morning.
- 4 The wind southwest, the sailing is slow but somewhat in the right direction. Today, everyone has stated their name and age to the captain. These days we have seen some ships, one from Boston with passengers, probably from England.
- 5 The wind northwest, stormy somewhat.
- 6 The wind westerly, a lot of storms, a big part of the passengers have seen a lot of fishes that are called spingare [dolphins] and jordkapare [whale].
- 8, 9, 10, 11, 12, 13 & 14 There is a westerly wind, and weak so the brig does not go that fast, also a lot of wood has blown off, so there is a big tumult onboard.
- 15 The wind is westerly, beautiful weather. Working on a new mast in wood, the carpenter/timberman and I have worked all night long. Some of our people have seen big fishes today they have also seen them roaring [vocalizing loudly] they appear as big as the ship we have been trying to control.
- 16 17, 18 The wind westerly, and good enough cold, because now we are in the Gulf Stream that flows from the Arctic Ocean.
- 19 Same as the day before.
- 20 & 21 Calm weather, and the brig is rocking significantly. Gustaf's youngest daughter in Sjoarp died today at six o'clock in the morning at an age of one year and five months. The corpse was wrapped in a sheet and then it was sewn up in a sail with a sinker at the feet. Later it was carried up on the deck and placed on a plank that was put on the railing, then it was lowered down into the deep grave, approximately 34 fathoms deep in the west middle of Newfoundland's sandbank.
- 22 & 23 The winds southeast, good wind, the brig is on its right route. It is very beautiful weather today on Midsummer's Eve, so all passengers are on deck, but no green groves to walk through.
- 24 The wind southwest, a lot of rain with storm.
- 25 26, 27, 28, 29 & 30 Same wind, warm weather, a lot of token fog, general health and expect land soon.

#### July

- 1 The wind, easterly, the brig goes on the right route.
- 2 Early in the morning we got to see Boston's lighthouse with fire inside, but it was far out in the sea, on islands and islets, these are for the sailors because it is dark. In the morning a steamer appeared and asked the captain if he wanted his brig to be

drawn to the port, but we had good wind, so he did not need it. Afterwards, came the pilot came in his big happy sloop *Hoping* and hopped on board, as captain of our brig into the port. A little after, the pilot and doctor came onboard to see if everyone was healthy which we were. In the evening we docked at the port, and went up and saw the big city of Boston.

- 3 In the evening we stepped on the steamer that went to Albany.
- 4 We arrived at the named city and went onboard a channel boat that horses were pulling/dragging.
- 5 In the morning left Albany.
- The boat stopped, because the channel was broken and so we had to stay there for five days.
- 10 We continued our journey these days and we saw 15 to 20 cities per day.
- We arrived in Buffalo, and in the evening we went on a steamer, that went through Lake Erie and the canals of Detroit and out in the lakes Huron and Michigan.
- 22 We came to Chicago; there we went on a channel boat that horses were pulling.
- 25 To Peru, there we took horses and wagons to Andover.
- 28 To Andover.
- 29 To Rock Island, Illinois.
- 30 To Burlington.

- 26 I made troughs for the maple sap.
- 27 I made troughs for the sugar maples, etc.
- 28 I tried to repair the molasses kettle but it was in vain. I hauled the troughs to the maples for Nilsson and me and had many little things to do.
- 29 Sunday
- 30 In the morning I drilled the sugar maples for Nilsson. In the afternoon I drilled Erickson's and mine.
- 31 In the morning I made 20 troughs for the sugar maples first. In the afternoon I was with Erickson and looked where to put his house. Later Erickson and I drilled the maples to the end, for a total of 66 maples drilled.

## **April**

In the morning I hung my corn to dry and had many other things to do. In the afternoon I repaired my pants, etc. In the evening I went to John's, and we settled the bills, both

- old and new, and we became even, only John owed me \$3 for corn.
- 2 In the morning I did little things. In the afternoon I split pieces of wood for the rat traps.
- 3 I cut the wood for the rat traps.
- In the morning Nilsson and I were at Fischer's, and we reconciled with him—Nilsson paid him 10 dollars, but if the sheep died, it would be 6 dollars more, and if the cow and calf died in 9 days, he should replace the calf particularly. \$2 were paid by Nilsson to Fischer so he could take back the lawsuit. If I had \$2 I would have paid Nilsson. In the afternoon we had a language meeting at John's, and it was pretty nice. Nilsson and I took the title from John.

- 6 I did a number of odd jobs.
- In the morning I cut up some planks and put on the roof, then cut ice out of the maple troughs.
- 8 I made the triggers for the rat traps, etc. I also watched over the cooking maple syrup.
- 9 I was at John's and cut timber for the church, etc. But it started to rain in the afternoon, so I went home.
- 10 In the morning I chopped and carried timber for the syrup kettle. It was Long Friday [Good Friday]. So we had a meeting in the afternoon, at Bengston's. John and I have settled the bill for my calf for the first 6 months he feeds him. I have paid \$4 for the first year, and \$6 for the second. John and I now have no bills to settle.
- 11 In the morning I boiled maple syrup, etc. In the afternoon I finished making the rat traps and tended to Mr. Nilsson's hand.

## 12 Sunday (Easter Day)

- 13 In the morning, we had a meeting at Bergquist's. In the afternoon we had a construction meeting for the church. Later that afternoon I paid 3 bits for a quarter-bushel of seed corn at Magnus Persson's. I also borrowed the grain grinder from Bengston.
- 14 I shelled corn all day, 3 ½ bushels.
- 15 I ground grains all day. I also ground 2 bushels of potatoes for Jonas Peter.
- 16 First I was with Mr. Nilsson to visit Fischer, and he paid 7 dollars for the calf that was dead. Fischer then said he would never demand anything more for what the dog did. Later that day I ground grains.
- 17 I ground grain all day. In the evening, I brought the grinder back to Bengston.
- 18 Brother-in-law John and I put up fence at Mr. Nilsson's all day.

### 19 Sunday

- 20 I chopped up logs for rails on the other side of the maples. I left 5 dollars with storekeeper Johnson. He will use that to pay my taxes in Chaska.
- 21 I cut rails on the other side of the maples.
- 22 I cut logs on the other side of the maples for stakes. Also worked on the syrup kettle.
- 23 In the morning I cut rails on the other side of the maples. In the afternoon we had a meeting

- at Bergquist's.
- 24 I put up a log fence at Mr. Nilsson's.
- 25 In the morning I did the same thing again, I put up a log fence at Mr. Nilsson's. In the afternoon, I wrote a letter to my brother-in-law in Burlington about the money.
- 26 Sunday
- 27 I split rails and stacks on the other side of the maples.
- 29 I had Alfred's ox and hauled log rails on the other side of the maples. At night I had 3 bushels of potatoes with me for Alfred, to pay for the breaking of sod and for the sack sewing.
- 30 In the morning, I was at Jonas Peter's and looked to see if the creek was open. In the afternoon I measured out potatoes—3 bushels for Jonas Peter, 5 pails for Lundsten, 2 bushels for Erickson, and 4 bushels for Mr. Nilsson.

## May

- In the morning I worked for Mr. Nilsson, making a front bolster for the wagon. In the afternoon we went to the creek by Jonas Peter's and fished at night.
- We came back home from fishing and I slept until dinner. In the afternoon we had a language meeting at John's.
- 3 Sunday
- 4 I split rails on the other side of the maples, etc.
- 5 I had Alfred, Peter, and Nilsson for help to put up the fence. Alfred borrowed flour.
- Peter Nilsson and I finished making the fence around the field on the other side of the maples. Peter Nilsson took a half-bushel of grain with him home. I have received the money from the storekeeper. The tax was \$1 and 60 cents.
- 7 In the morning I fixed all the breaks in the log fence. In the afternoon I made a hoe-shaft, and did other little things.
- I went to Carver, to see if I could get some raffia for the grafting boxes. I went to Noyes for a quarter bushel of grain and it cost 50 cents.
- In the morning I did a number of odd jobs. In the afternoon I raked and grub-hoed the potato land and did other jobs.

## 10 Sunday

- Jonas Peter harrowed my wheat on the other side of the maples. Erickson sowed the wheat for me and I dragged it. I was at Mr. Nilsson's and bought a quarter-bushel of wheat, so I have sowed 1 ½ bushels in the little field. Later that day I grub-hoed more of the potato land, and cut cornstalks.
- 12 I went to Jonas Peter's and grub-hoed in exchange for when he harvested my wheat. Mr. Nilsson today was to Carver but he did not get my grafting box.
- 13 In the morning I plucked stones in the little field, and raked grain stacks in the big field. In the afternoon we had a meeting at Alfred's.
- 14 I grub-hoed next to the potato land and I chopped cornstalks. It rained all day.

- 15 Alfred was here and we plowed up the entire potato field. Then I raked the cornstalks.
- 16 I cut grain stalks and raked all day. I measured out 2 bushels of potatoes for Erickson and 2 bushels for Jonas Peter.

- 18 I was at Alfred's and grub-hoed because he plowed the entire potato field for me.
- I went to Carver to get my grafting box and one flour sack for Erickson. I left 50 cents to Holms for transportation to St. Paul, but if the boat does not ask for it, I will have half of my money back again, and 25 cents I paid Holms for the trouble, 1 dollar and 50 cents Nilsson took for the ride for me, and 30 cents I got from Erickson for the flour sack I brought home.
- 20 In the morning, I hauled in the grafts. In the afternoon we put out the fishing net and got a splendid lot.
- 21 In the morning, John and I cleaned fish at his house. We were done by 3 in the afternoon and in the evening Erickson and I planted apple grafts.
- 22 I planted grafts all day.
- 23 I planted grafts all day.
- 24 Sunday
- 25 In the morning I was at Nilsson's and planted corn. To count in the priest day work. In the afternoon I carried home potatoes from Jonas Peter, and put down sticks for the grafts, etc.
- 26 First I moved dirt away from the graft tops and then later I planted potatoes.
- 27 In the morning I planted potatoes. In the afternoon we had a language meeting at Alfred's.
- 28 I planted corn. Anders Erickson put down corn.
- 29 I did not feel well. I planted a little corn and in between I lay down.
- 30 I was sick. But I still wrote a letter to my brother Carl, to answer that I have received the grafts, also to brother-in-law John what kind of grafts he should buy. It rained all day.
- 31 **Sunday** I was then sick so I could not attend communion.

### June

- In the morning I made a hoe shaft; I went to Scandia and voted in representatives and councils. In afternoon I planted some corn, but I did not feel well.
- 2 I did not feel well, but I planted corn all day and had Erickson for help.
- Also not feeling well, I planted some corn at one point. At four o'clock in the afternoon we went to Lundsten's for a meeting. Erickson and Anders helped me plant corn.
- 4 Erickson and I planted corn in my field all day until we were finished.
- 5 I dug the cabbage beds and planted. Mr. Nilsson today went to St. Paul and will bring home a load of flour for us.
- 6 Over half of the day I was at the pastor's day work. At Nilsson's I planted potatoes.

In the afternoon I did not feel well.

## 7 Sunday

- 8 I was at Erickson's and helped him with the foundation for his house.
- 9 I planted potatoes to the end of the day. All together I have planted 7 ½ bushels potatoes.
- 10 I was at Erickson's, we put in the bolsters.
- 11 At Erickson's. First we put down a lap around the basement [a trench which was filled with stones], with more fixing. Started to dig [the basement].
- 12 At Erickson's and we dug in the basement.
- 13 At Erickson's and we finished digging the basement.

# 14 Sunday

- 15 In the morning I picked over my grains and fixed the grain crib. Last Wednesday Mr. Nilsson came from St. Paul. He had with him my little barrel of flour, which cost 3 dollars and 75 cents. I sent with him \$5.25, so he did not receive more than 50 cents for hauling it home for me.
- 16 I hoed around the graft land. Hoed corn and replanted some corn. Made a pole for Erickson and one for me, etc.
- 17 We started to work on Erickson's house.
- 18, 19 & 20 We worked on Erickson's house and today, the 20th, Anders and Tilda hoed my corn.

### 21 Sunday

- 22 At Mr. Nilsson's, on the pastor's day work, where I cut planks for the kitchen.
- 23 I worked for Mr. Nilsson in the morning. Cut planks for the kitchen. In the afternoon I did not do anything more than sleep and read magazines.
- 24 In the morning I wrote a letter to Klad in Sweden. In the afternoon we had a business meeting for the church.
- 25 I worked at Erickson's, chopping wood for the beams on the house.

- 3 I cut planks for Mr. Nilsson's porch.
- 4 We had a meeting all day.

- 6 I cut planks for Mr. Nilsson's kitchen.
- 7 I split ceiling boards for Erickson.
- 8 I split boards again for Erickson. I brought my heifer to Nilsson's bull in the evening.
- 9 I had a number of odd jobs to do. In the afternoon I split panels for Erickson.
- 10 I worked for Erickson all day.
- 11 In the morning I planted beets and turnips. In the afternoon I started to hoe corn.
- 12 Sunday
- 13 In the morning I hoed corn. In the afternoon it rained. I wrote a letter to Klad in Sweden.
- 14 I hoed corn all day.
- 15 I hoed grains all day, and had Tilda help.
- 16 I cut ceiling boards for Erickson.
- 17 I cut ceiling boards again for Erickson.
- 18 We had a language meeting and feast all day.
- 19 **Sunday**
- 20 21, 22, 23, 24 & 25 I worked for Erickson on his house.
- 26 Sunday
- 27 I went to Broberg's and made the hayracks. For that I will get to borrow them for my hay.
- 28 First in the morning I went to Broberg's and finished the hayracks for 3 hours. Later at two o'clock in the afternoon I went to Mr. Nilsson's and put down the foundation for the haystack, with more in pay for his sending letters for me to Sweden. Later in the afternoon I started to write to Sweden. John was at Fischer's today, and took my heifer with him. I paid him 50 cents for that.
- 29 I wrote to Sweden all day.
- 30 To three o'clock in the afternoon I wrote letters to Burlington and to my cousin Johan from Helgesfall [farm]. Later that evening I chopped wood to make a road to the little field.
- 31 I cut and tended hay at P. Daniel's claim.

### August

- 1 I cut and cleaned hay at Per Daniel's claim.
- 2 Sunday
- First in the morning I finished the letter to Sweden and to cousin Johan, and sent them to Burlington the same day. Then I cut out a road to haul hay. In the afternoon I made a rake, etc.
- 4 I cut and cleaned hay at Per Daniel's claim.
- 5 I cut and cleaned hay at Per Daniel's claim.
- 6 I chopped timber for the basement.
- 7 I cut bolsters and timber for the basement.
- 8 John and I hauled and stacked hay at Per Daniel's claim.

- 10 I put up hay at Per Daniel's claim.
- 11 I sowed at home all day.
- 12 In the morning I mowed down my wheat. In the afternoon I mowed, etc.
- 13 I mowed a little [hay], chopped logs for the basement, and fixed John's scythe, etc.
- 14 John and I hauled the last hay to Per Daniel's claim.
- 15 I put up hay all day at home.
- 16 Sunday
- 17 John and I hauled logs all day to my basement. It was counted as 2 days of work, for which Erickson owes me.
- 18 In the morning I cut [hay]. In the afternoon I put up hay.
- 19 I cut a little [hay], and put up hay, etc.
- 20 I raked together the wheat and put it up with more to do. I went with the letter I wrote to Johansson yesterday to the post office in Chaska.
- 21 In the morning I cut logs for over the basement, etc. In the afternoon it rained, so I did not do anything.
- 22 I made a tongue for Broberg's wagon, and started to work on the basement. I also pulled up the well in the evening.
- 23 Sunday
- 24 Broberg hauled hay for me all day, and I helped.
- 25 I spread out the wheat, stacked the hay by the well, shocked the wheat, and also finished making the haystack.
- 26 I worked on the basement, and Broberg and I hauled loads of hay by the well to the cattle shed.
- 27 & 28 I worked on the basement, etc.
- 29 I cut the trusses for the basement.
- 30 **Sunday** Per Daniel is up now.
- 31 I made a tongue for Broberg's wagon.

## **September**

- In the morning I was at Mr. Nilsson's and cut shingles for the new house. In the afternoon I took the tongue for Broberg's wagon and finished it.
- In the morning I made a tie for Broberg's wagon. I have done 2 ¼ days of work on Broberg's wagon, or almost 2 ½, with the time it took me to cut the wood for it. In the afternoon we had a language meeting.
- 3 I was at Mr. Nilsson's and chopped timber for his house.
- 4 It rained. I repaired a shoe and did other small jobs.
- 5 I was at Mr. Nilsson's and worked on the foundation for his house. I do not feel well.
- 6 Sunday
- 7 8, 9, 10 & 11 I was at Mr. Nilsson's and worked on his house. Wednesday he went to

## Chisago.

- 12 I went to Scandia and made a coffin for Andrew Mattson's wife.
- 13 **Sunday** Mattson's wife was buried.
- 14 I was at Jonas Peter's and Broberg's for the flour since they returned from the mill, and I was also at John's, and also did little things.
- 15 I made a cylinder for the basement. Also worked at my house.
- 16 I repaired a shoe and did other small jobs.
- 17 Broberg was over and plowed the little field until five o'clock in the afternoon, then it rained.
- 18 Again Broberg was at my place and plowed the little field. We set up the bill and he owed me one and a half dollars for cornmeal, and I raked there for 3 days for what I owed him for the meal. He insisted that he did not want to take it, or anything for it because he had taken my corn to the mill. That was approximately 2 bushels, but I did not take a quarter days of work because I sold timber to his wagon. We also settled both days we plowed, so no charity has been done for me, but he wanted to count it as that.
- 19 I dug a hole for the side porches by my house, etc.
- 20 Sunday
- 21 & 22 I scaled up my house and started to dig the basement. Had Erickson and P. Nilsson for help.
- 23 I dug on the basement. Fischer's boy said that my heifer had taken the bull today.
- 24 25 & 26 Erickson and I dug the basement. P. Nilsson helped for a day, and we stopped working on the basement for this week. P. Nilsson has now worked off his debt for me, so we are even.
- 27 Sunday
- 28 & 29 I repaired the trusses on my house, and moved in.
- 30 In the morning I shoveled away the soil around the house. In the afternoon, we had a meeting. I went to Bengston's for my bushel of rye.

### **October**

- I cut corn stacks, etc.
- 2 I cut corn stacks. Erickson cut 8 shocks today for himself.
- In the morning I went to look for John's oxen but I could not find them. In the afternoon I finished shoveling the soil around the house. Erickson cut cornstalks for me today.
- 4 Sunday
- John was here and cultivated the rye with his oxen, and I sowed the rye and did more little things. I also put together the swine sty and took it to John.
- 6 & 7 I was at Mr. Nilsson's and worked on the house.
- 8 I was again at Mr. Nilsson's and worked on the house.

- 9 & 10 I worked on the church, we put in windows.
- 11 Sunday

- 13 In the morning I worked alone in the church, I then finished the doors, and put on trim. In the afternoon we had a lecture in Waconia.
- 14 15, 16 & 17 I worked for Nelson on the house.
- 18 Sunday Abrahamson was baptized.
- 19 I worked for Nelson on the house. Erickson and his kids dug potatoes for me today.
- 20 & 21 I worked on Nelson's house. But Andreas Swenson dug potatoes for me both days, so I had nothing for him at Nelson's. On the 20<sup>th</sup> Erickson and his kids dug potatoes for me and finished today. The entire potato harvest was 99 bushels, after planting 7 ½ bushels.
- 22 23 & 24 I worked for Nelson on the house, now it's completed. In the afternoon I did little things for myself.
- 25 Sunday
- 26 In the morning I went to Alfred's and Johan's. Erickson and I ground things, etc. In the afternoon I did small chores.
- 27 I daubbed my house.
- 28 29, 30 & 31 I cut wood for my house.

### **November**

- 1 Sunday
- 2 In the morning I cut panels. in the afternoon we had a mission meeting.
- 3 I cut panels, etc. Erickson hauled boards for me today.
- 4 In the morning I hauled boards. In the afternoon I started to put up the ceiling.
- 5 I finished putting up the ceiling.
- 6 I did a number of odd jobs at the house and cut panels.
- 7 8 & 9 I went with Mr. Nilsson to Carver Settlement and two women were baptized.
- 10 I hauled rails with John's oxen, and hauled turnips and hides to John.
- 11 I was at John's and put up the pigsty.
- 12 I sewed a pair of mule gloves, etc.
- 13 I was at Broberg's and worked on the foundation of his house.
- 14 I lay ill with a cold all day.
- 15 Sunday
- 16 Erickson and I grub-hoed in my field.
- 17 In the morning Erickson and I grub-hoed as well. In afternoon we had a meeting at Nelson's.
- 18 I was at Broberg's and worked on his house.
- 19 In the morning I went to Scandia to speak with A. Mattson about the woodcutting

- and also at John's. In the afternoon I worked for Nelson and I started to frame the porch.
- 20 I worked for Nelson. In the morning I butchered the boar. In afternoon I worked on the porch.
- 21 I worked for Nelson on the porch until two o'clock in the afternoon. Later I did little things for myself.
- 22 Sunday
- 23 24 & 25 I was at Erickson's and made a door for his house.
- 26 I was at home, and made the outside door for the basement. Also fixed the corncrib.
- 27 I hoed corn and had help from Erickson's kids.
- 28 I was at Broberg's and worked on the house. Erickson and his kids hoed corn for me today.
- 29 Sunday
- 30 I hoed corn and had help from Erickson and his kids.

#### **December**

- 1 2 & 3 I hoed corn and had Erickson and his kids for help, and have now stopped hoeing. Erickson's kids have done 10 days of work together, and I have given them 5 bushels of corn for their work.
- 4 In the morning I made a potato box in the basement. In the afternoon I did little things.
- 5 In the morning I did little things. In afternoon we had language class.
- 6 Sunday
- In the morning I looked for runners for the stone boat for Broberg. In the afternoon we had a mission meeting.
- 8 I had John's oxen and hauled a load of corn to John. I also repaired Mattson's wagon box that Johan was to use.
- 9 I made a jumper for John's sled.
- 10 I finished making the sled, etc.
- 11 For as much as three-quarters of the day I spent on behalf of Broberg. I cut and chopped wood for his sled, but it may happen that I may not get paid for more than a half of a day, but that would be unjust, because he himself was the reason for lost time, as he did not come and haul the timber to the sled at the time he promised.
- 12 In the morning Broberg and I hauled home the timber for his sled. In the afternoon I cut up the material for the runners.
- 13 Sunday
- 14 I worked on Broberg's sled. I cut up timber and hewed out the boards for the jumper and finished one of the runners.
- 15 I did various little things. I was at Fischer's with Erickson's cow to breed to the bull. I cut up wood for Broberg's sled. Per Monson and Johan from Molone were here to

- buy 10 bushels of potatoes and 2 bushels and a panful of corn. Brother-in-law John took 5 bushels of corn to Carver for me. He received 60 cents a bushel, but he must take planks instead of cash. Per Monson shall pay for the potatoes next spring for 30 cents per bushel, and corn based on the prices in the spring.
- 16 I worked on Broberg's sled. Erickson's Anders [his son] has today stopped digging my potatoes, it shall now be 65 bushels in the cellar, except the ones I sold to Per Monson.
- 17 18 & 19 I worked on Broberg's sleigh. Anders Erickson was here for 2 bushels of potatoes, which is his pay for digging the potatoes. There is now not more than 60 bushels of potatoes in the basement.

- 21 & 22 I worked on Broberg's sleigh and I finished it. I worked on the sleigh for a total of 9 days, except the times I spent on small jobs. He did not want to pay more than 75 cents per day, but I shall at least have 7 dollars for my work on the sleigh.
- 23 & 24 I chopped elm trees to enlarge my house with.
- 25 **Christmas Day** We had meetings and a feast.
- 26 We had two meetings.
- 27 **Sunday** We had 2 meetings. I have been at John's all three days.
- 28 & 29 I cut a road from my claim to Johnson's.
- 30 & 31 John was at my place and hauled logs to my house and kitchen, but started late in the morning and quite late in the afternoon.

#### 1858

- 27 In the morning I worked for Nelson on the sleigh. In the afternoon we had a meeting.
- 28 29 & 30 I worked for Nelson on the sleigh.
- 31 Sunday

### **February**

- In the morning I was with the road supervisor Johnson on his claim, and spoke with him about the road tax. In the afternoon I worked for Nelson on the sleigh.
- 2 3, 4 & 5 I worked for Nelson on the sleigh.
- 6 In the morning I worked for Nelson, where I hooped a washtub.
- 7 Sunday
- 8 9, 10, 11, 12 & 13 I worked for Nelson on the sleigh, and stopped on Saturday night at eleven o'clock.
- 14 Sunday
- 15 I shelled and ventilated the grains so I could send them with John, to be ground at the mill.
- 16 I went to John's for the oxen, then went to Scandia and borrowed the wagon box and went home and hauled grain to John's for the pigs.
- 17 In the morning I was at John's. Afternoon we had a meeting.
- 18 In the morning I made a pair of lasts for the boots. In the afternoon I did little things.
- 19 & 20 I repaired my boots.
- 21 Sunday
- 22 I repaired shoes and boots.
- 23 I did little things, including making a snow shovel for John.
- 24 We butchered the second sow. She had 180 pounds of pure pork.
- 25 I made a stair for the basement, and went to the forest and looked for oak to make

- shingles.
- I was at Swanberg's in Waconia and borrowed Swanberg's saw. I went to the farm hand Magnus, and Johan's, and sold 29 pounds of pork to Johan Moller, for 12 ½ cents per pound. Also, to Peter Bran, I sold 24 pounds of pork for 12 ½ cents per pound. Ditto Peter Bran for one pig, 3 dollars.
- 27 I had the farm hand Magnus for help sawing the shingles. In the evening I wrote a letter to Burlington and sent it shortly thereafter for the grafting boxes.

#### March

- 1 & 2 I cut shingles and had brother-in-law John for help.
- In the morning I was at John's and helped him to saw. At dinner time I went home with the saw to Waconia. In afternoon we had a meeting, where Broberg was called to the church assembly for his claim jumping of Braun's claim.
- 4 In the morning I made a sawbuck and filed the saw. In the afternoon I cut shingles.
- 5 I cut shingles, etc.
- I hauled home shingles with Nelson's mare and did other odd jobs. In the afternoon I wrote a letter to Burlington again.
- 7 Sunday
- I did a number of odd jobs, including repairing a fro for Erickson, and he made a clamp for me. In the afternoon we had a mission meeting.
- 9 I finished making the clamps for the boards, etc. I was also at Alfred's and sharpened the shingles knife.
- 10 I did little things, including carrying in corn to let it dry.
- 11 In the morning I made a gutter. In the afternoon I did little things.
- 12 In the morning I chopped beams for my house and also some timber logs. In the afternoon I walked over to Alfred's and John's.
- 13 I cut a road around the field, cut logs for the rails, etc. Mr. Nilsson arrived from St. Paul. He brought home 1 ½ bushels of Canada club wheat for me that cost 1 dollar and 5 cents a bushel.
- 14 Sunday
- 15 I made a stone boat to haul logs in, and put a shaft on a fro for Johan, etc.
- 16 & 17 I hauled logs to my house with Johnson's oxen.
- 8 & 19 I made some shingles, etc., but I have not been well for the past two weeks. It has been very bad weather, with rain with strong thunder, and the frost is not yet gone. Yesterday the 18th I measured 2 bushels of corn for Mr. Nilsson because I got to borrow his mare. Ditto 3 bushels of corn for Mr. Nilsson and for those 3 bushels I shall have his mare to go to Carver and get the grafting boxes. Tonight as I write, there is a very strong thunderstorm followed by some really heavy rain with a storm, which is very rare this time of year in Minnesota.

- 20 I made shingles and had the farmhand Magnus for help; we made 350 pieces.
- 21 Sunday
- 22 In the morning I gathered together the grain straw, and in the afternoon I went to the farmhand Magnus's and worked on his house.
- 23 I worked again at Magnus's house.
- 24 In the morning I worked at Magnus's again. In the afternoon I went to a meeting. At night I became pretty sick.

- 22 I made shingles all day. Abrahamson was here with a message that my grafting box has arrived in Carver.
- 23 I grubbed all day, but I do not feel well.
- 24 I do not feel well, in the morning I laid down. In the afternoon I did little things.
- 25 Sunday
- 26 I made shingles, etc.
- I went to Carver to get my grafting boxes with Nelson's mare. Jonas Peter was with me as well and we took the new road toward Chaska. I had to pay 1 dollar for the shipping for the box, from St. Paul to Carver; they said there was no bill for the handling. Holms charged 40 cents because he took care of the boxes, the greedy dog. I took home one sack of flour, for me and Abrahamson. The flour cost 5 dollars per barrel.
- 28 I grub-hoed with Erickson's help.
- 29 First I took the grafts out of the box, and the grafts were healthy and good. Then I burned up the weeds I grub-hoed. I grub-hoed to the cattle shed.
- 30 Brother-in-law John was here in the morning until nine o'clock. We plowed a place for the grafts. In the evening I started to plant the grafts.

### May

- 1 I planted grafts all day.

- 25 I broke sod in the orchard and had Broberg for help.
- 26 First it rained, and from eleven o'clock to one o'clock we plowed in the orchard and finished that. In the afternoon I harrowed in the orchard. In the evening I sowed

- some turnip seed.
- 27 I was at Lundsten's and broke sod, and Broberg was at my place and cultivated corn and potatoes.
- 28 I did odd jobs, including sowing rutabaga seeds, which I finished.
- 29 Sunday
- 30 I was in Waconia and worked for Boyd, and had Schilling for help.

## July

- 1 & 2 Schilling and I worked for Boyd. The 2<sup>nd</sup>, the heifer "Misa" was bred by the bull.
- 3 I hoed corn on the little field with Niklas's help.
- 4 We had a celebration in Scandia all day.
- 5 I hoed the tobacco and beans, etc.
- 6 Sunday
- 7 I hoed and hilled the tobacco, later I went fishing.
- 8 I hoed by the apple trees, etc.
- 9 In the morning I wrote a letter to brother Carl and went to the post office with it. In the afternoon I hoed by the apple trees, etc.
- 10 In the morning I hoed corn by the cow barn. In the afternoon I made a frame for the grinding stone.
- 11 I was with Peterson and Maja Stina and took them to Chaska. I also went to Carver and to Tureson.
- 12 I cultivated corn on the little field and used Broberg's horse for that because I did the eveners for his wagon.
- 13 Sunday
- 14 First I went to Taylor's and John's. Afterwards I did odd jobs. In the afternoon I went and stripped raffia from the basswood at P. Daniel's.
- 15 I started to cut hay on the southern field; I had Hakanson and Niklas Swenson for help.
- I harvested with Hakanson and P. Daniel's help. Today the assessor was here, I said I had 30 acres of swampland, 9 acres of broken land, at 7 dollars per acre equals 63 dollars, and 121 acres of unbroken land, at 2 dollars per acre equals 144 dollars, but he calculated it to 330 dollars. Personal property includes: a pair of oxen at \$25, one ox at \$12, one ox at \$8, cows with calves at \$37, a heifer at \$8, 3 calves at \$12, 2 ewes with lambs at \$4 each, 5 pigs at \$4 each, and household items at \$10. All together \$120, the log house \$10, so my taxable property is \$330 and the personal property \$120.
- 17 In the morning I lay in bed because I was sick. In the afternoon I put up hay on the southern plot of ground, and from half past two to the evening, I had Niklas and Hans for help.

- 18 I made a horse rake, to rake grain with. It rained all day.
- 19 In the morning I raked the rye stubble until two o'clock in the afternoon. Afterwards I made a hayrack and did other odd jobs.

- 21 Elsa and I put up hay on the southern forty. In the evening I sharpened Hammerberg's cradle.
- 22 First I cut hay, afterwards I stacked it, and Elsa helped me.
- 23 I was at P. Daniel's and cradled off the rye.
- 24 I stacked the hay on the southern quarter, and had Taylor and P. Daniel for help, also Hakanson's until dinner time. In the afternoon we put up hay and stacked it. Sister-in-law Maja Greta arrived yesterday.
- 25 I stacked hay at P. Daniel's place.
- 26 First to half past one, I cut hay on the swamp by the well and had Schilling for help. He went home at 9:30. Afterwards I put up hay and cut hay, close to the field on the big meadow. Maja Greta went home today.

# 27 Sunday

- 28 I cut hay in the swamp on the northern plot of ground, had Schilling for help. Also I cut hay a little on the home meadow and finished it. Afterwards I put up hay by the well.
- 29 I hauled home hay from the home meadow and had Alexander's boy Albert for help. Also I did more little things.
- 30 First we put up hay on the home meadow. Afterwards we hauled home hay all day and finished. In the evening I put up a fence around the small haystack, on the southern quarter. Alexander's Albert helped me.
- 31 I cut hay on the school land and had Taylor and Albert, Alexander's son, for help.

### August

- In the morning I repaired the cradle. In the afternoon I hauled the rye and hay. Anders Erickson has worked for me all day.
- I was at the school land and cut hay and stacked hay. From two o'clock until the evening, Alexander's son Albert helped me.

- 4 First I was supposed to cut down the club wheat but then it started to rain. Afterwards I went with P. Daniel home and cut hay until half past 3, then P. Daniel went home with me and we cut wheat until the evening.
- I cradled off club wheat until dinner. Hakanson and P. Daniel tied. In the afternoon Hakanson and I went and put up hay on the school land.
- 6 First I went and put up some haystacks on the school land. Afterwards it rained all day and then I repaired a shoe for Ida.
- I was at P. Daniel's and stacked hay and cradled wheat. Elsa and the kids have been to John's today.

- 8 It rained all day. Today I have adjusted the clock. I paid Alexander today.
- 9 I was at the school land and turned and put up hay.
- 10 **Sunday** Mortenson and Per were here today.
- 11 Elsa and I stacked a haystack on Hans's field, etc.
- 12 I cradled wheat and John and P. Daniel tied.
- 13 It rained. In the morning I did not do anything. In the afternoon I did odd jobs. In the evening I went to a war meeting at Witsack's.
- 14 I continued to put up hay. Later I was at John's and cradled.
- 15 First at ten o'clock, I was at P. Daniel's and cradled. Later I cradled wheat at home and finished. P. Daniel and Hakanson tied.
- 16 First until eleven o'clock I repaired the cradle. Afterwards I was at P. Daniel's and cradled. Schilling was here in the afternoon and harvested peas.

- 18 I cradled oats, and Schilling cut hay down and the peas. Later Schilling, Elsa, and I shocked the wheat that had been lying unraked. We also tied it together and put it up. I should never let grain lay unshocked.
- 19 I stacked hay on Hammerberg's land, and had Schilling for help.
- 20 We became scared by the Indians. So we fled to the island in Clearwater Lake, and stayed there until the evening of the 21st, then we went back home.
- 22 I fenced around a haystack on Hammerberg's land.
- 23 In the morning I cut hay on the northern plot of ground. In the afternoon I stacked wheat and had Niklas's boy for help all day.
- 24 **Sunday** As soon as we started our service, Anders Swenson came and said that we had to go to war against the Indians. The meeting was broken up and everyone went to their own place to prepare, but then we decided to wait until further notice.
- 25 I went to Nobles for a meeting and to be examined by a doctor to see if I was capable of joining the war.
- 26 In the morning I fenced around the haystack on the northern quarter. In the afternoon I turned and bundled the peas and had Niklas for help.
- 27 I hauled wheat, hay and oats with the help of Niklas and his boys, Alexander's Albert, and Niklas's oxen.
- 28 I was at the school land and cut hay all day.
- 29 I cut hay on P. Daniel's land all day.
- 30 I was at John's and cut hay for A. Peterson all day.
- 31 **Sunday**

### September

- In the morning I went to Waconia and hauled out logs. In the afternoon Hakanson and I stacked hay on the school section.
- 2 Elsa and I went to Chaska. Peterson drove us there.

- 3 I stacked hay in P. Daniel's fields all day.
- 4 I stacked hay near Winkel's place on the school section and Alexander's boy, Albert, helped.
- 5 & 6 Did nothing as we had another Indian scare. We carried our stuff out in the brush and intended to flee to St. Paul.
- 7 **Sunday** We are more peaceful about the Indians today.
- 8 P. Daniel and I stacked his hay.
- 9 I did odd little things. Hakanson's Hanna cut the tobacco for me today. I paid her 30 cents.
- 10 & 11 I put panels in the corncrib, made a movable storage box, built a pigsty, etc.
- 12 I made an ox yoke for P. Daniel. He cut corn for me for a few hours.
- 13 I cultivated all day.
- 14 Sunday
- 15 P. Daniel and I cut corn all day on the small field.
- 16 & 17 John stopped here on his way, as he is moving to Red Wing. They left at noon on the 17<sup>th</sup>. Swen Bengtson drove them as far as Chaska.
- 18 First I made a flail and then I cut weeds all day.
- 19 I did many little things and cleaned the manure in the cow barn.
- 20 I went to Waconia and rolled logs to the saw. In the afternoon I did odds and ends. At noon on the 17<sup>th</sup>, the Dalecarlian woman came here and worked until the evening of the 20<sup>th</sup>. She hoed around all the apple trees, pulled weeds in many places, and also flailed the flax.
- 21 Sunday
- I went to Waconia and worked for Boyd. I took along P. Swenson's Andrew, from Scandia, to work for me at Boyd's. I sent a letter to brother Carl today.
- 23 I cultivated. The Dalecarlian's daughter, Anna, led the oxen. P. Swenson's Andrew, from Scandia, worked at Boyd's for me today.
- 24 I cultivated and Anna led the oxen.
- 25 I cultivated and Anna led the oxen
- 26 I sowed a good 2 ½ bushels of rye and harrowed it in. Anna did various small jobs. Schilling worked for me in Waconia.
- 27 I went to John's house and built a movable storage box.
- 28 Sunday
- 29 I plowed and Anna led the oxen.
- 30 I went to Waconia and hauled my boards out of the way. In the evening I went to John's house and waited for the threshing machine but it did not come.

### October

- 1 I threshed at John's and covered his corncrib.
- 2 I made a gate in the cow barn fence.

- 3 & 4 I plowed and Anna led the oxen.
- 5 Sunday
- 6 It rained. I tied the tobacco into bundles, mended the wagon and many little things.
- 7 First I put up the stove, then I cut the grass and raked the path in the back.
- 8 In the morning I cut and raked the rye stubble. In the evening we elected Bergquist as deacon at our mission prayer meeting.
- I went to John's for 3 bushels of wheat and 2½ bushels of rye, and took it to Waconia. I hauled out of the way more of my boards and piled them all. I now have 24 butternut boards and 11 oak boards by the mill. The boards from the 3 butternut logs totaled 774 feet and the cost for milling was \$4.64. The boards from the oak log John gave me made 266 feet and cost \$1.86.
- 10 First I hauled pumpkins and rutabagas. Then I went to Hammerberg's and threshed.
- 11 We dug potatoes and the Dalecarlian's boy helped.
- 12 Sunday
- 13 Elsa and I finished digging the potatoes.
- 14 I dug the rutabagas. The Dalecarlian's boy and girl Anna, also Niklas's Hans and Kana, all helped.
- 15 I dug the rutabagas. The Dalecarlian's boy and girl helped.
- I went to Waconia after the oats. The 3 bushels of wheat from John weighed 192 pounds and yet I only got 65 pounds of flour from it. The 2½ bushels of rye weighed 119 pounds and I got 55 pounds of flour from it. John owed us 45½ pounds of rye flour, so I have 10 pounds too much of that, but John owed us 2 bushels of wheat and 30½ pounds of flour, but I got only 21½ pounds of flour for the bushels, so the 10 pounds of rye flour will have to be added. Now John and I are square. In the evening I fixed my wagon and did other little jobs.
- 17 I hauled manure. In the morning Niklas's Hans helped and in the afternoon Hakanson helped.
- 18 In the morning I butchered two pigs and in the afternoon I hauled manure. The boy from Dalecarlia worked for me all day.
- 19 Sunday
- 20 I threshed over at Niklas's all day.
- 21 Until 11:30, we threshed at Niklas's and then they came here. In the afternoon we threshed here.
- We threshed until 10 in the morning. The Scottish Fife wheat yielded 65 bushels, the club wheat, 26 bushels, the rye, 37 bushels, and the oats, 24 bushels, with a total of 152 bushels of grain. All the grain was cut too close to the ground, so the straw was too long; also the grain stacks had leaked. Another year I must be more careful in the stacking and put all the heads to the inside and make a steeper slant. I also believe that the wheat should be sown earlier. In the evening we threshed at Jonas Peter's place. I sent a letter to Elisabeth.

- 23 In the morning we threshed at Jonas Peter's and in the afternoon at Lundsten's.
- 24 In the morning we threshed at Lundsten's and in the afternoon at Erickson's.
- 25 Until 10 a.m. we threshed at Erickson's. In the afternoon I made a pigpen, etc.
- 26 Sunday
- 27 I did various little things.
- 28 In the morning I threshed at Peter Nilsson's. In the afternoon I hauled pumpkins and put straw on the pigsty roof.
- 29 I hauled manure. The Dalecarlian boy helped me. Brita and Anna husked corn—130 ears apiece.
- 30 In the morning I did odd jobs. In the afternoon I cleaned the well. Brita and Anna husked corn, and Brita also helped me with the well.
- 31 I plowed and Anna led the oxen.

#### **November**

- In the morning I plowed and then hauled pumpkins, beans, etc. Later I cultivated around the apple trees using Peterson's mare. Peterson also helped.
- 2 Sunday
- 3 I cultivated all day.
- 4 First I went to a lecture at Witsack's, then I plowed.
- 5 I began building a shelter by the apple trees and Niklas Swenson helped me.
- 6 I did little things. Elsa had company today to help her quilt a comforter.
- 7 I hauled straw for the shelter by the apple trees.
- 8 I hauled more straw for the shelter, etc.
- 9 Sunday
- 10 I hauled corn. Schilling worked for me at the meetinghouse.

- 12 I winnowed and aired the peas—they totaled 6 bushels.
- 13 Schilling and I piled wood all day.
- 14 I first repaired J. A. Peterson's boots and then I hauled hay from the swamp by the fields.
- 15 Today, I fixed the cattle barn and shut up the cattle because last night we had our first snow and it was a really heavy snow.
- 16 **Sunday** We both stayed home.
- 17 Schilling and I cut down logs for rails on the southern forty.
- 18 I hauled swamp hay and chopped down logs for mangers.
- 19 I fenced in a piece for the manger in the cattle yard. Schilling did a bit of everything this morning and also piled the manure. This afternoon he worked on the road.
- 20 I fenced in a yard for the geese between the cattle yards, etc.
- 21 I worked on the road in the woods below the cattle barn. Schilling worked for

- John on the road. Julius Witsack was here and bought the colored ox for \$35.
- 22 In the morning I worked on the road. Altogether this year I worked on the road for 5 ½ days. In the afternoon I hauled cornstalks from the small field. Schilling chopped down logs for rails today.
- 23 Sunday
- 24 In the morning I hauled home a load of hay from the school section over near Winkel's. In the afternoon I did little things.
- 25 I daubed on the loft, etc. Schilling has begun to split rails.
- 26 I daubed the cabin on the inside. This afternoon Schilling split rails.
- 27 I daubed the cattle barns, etc.
- 28 First I went to Mitchell after the ram for the ewes and then I chopped wood and built a shelter for the cherry trees.
- 29 I hauled hay from the school section near Winkel's.
- 30 Sunday

#### **December**

- 1 First I did various little things and then I went to get Mrs. Hammerberg.
- 2 I went to Poppitz's, Carver, and Chaska.
- 3 I did various little things. I took Mrs. Hammerberg home.
- In the forenoon I did various small jobs, then I went to Waconia with 8 bushels of rye oats. Elisabeth arrived from St. Paul today.
- 5 I did various little things.
- 6 I did various little things.
- 7 Sunday
- 8 First, I went to the school section after a load of hay. Then, I made everything ready for the butchering of the pigs.
- 9 I butchered the pigs with P. Daniel's and Niklas's help.
- 10 I hauled hay and did various little things.
- 11 I went over to John's and butchered his pigs.
- 12 I did various jobs.
- 13 First I took Mitchell's ram home and then I went to a mission meeting. Peterson resigned as pastor.
- 14 Sunday
- 15 I chopped out the road on the line between Jonas Peter's and my land.
- 16 My son, John Axel, was born at 12:30 in the morning. Today, I did various little things.
- 17 In the morning I salted down the pork and in the afternoon I did odd jobs.
- 18 I hauled hay from the large stack on the southern forty.
- 19 First, I butchered a calf, and then Mitchell and I stepped out the line between our properties.

- 20 In the forenoon I did several odd jobs and in the afternoon I went over to John's house with the hide that the people from Dalecarlia were to tan.
- 21 Sunday
- 22 First I made brine for the pork and then I husked corn, etc.
- 23 I butchered Peter Nilsson's pigs.
- 24 I chopped wood all day.
- 25 **Christmas Day** I went over to John's after some books for Peterson and took them to him in Scandia. Peterson is very sick.
- 26 I did various little things. Granlund and Swedlund went home today.
- 27 I did little things and in the afternoon I husked corn.
- 28 Sunday
- I husked corn all day. I received \$15 from Julius Witsack today as payment for the oxen. One \$5 bill commercial bank of Whitehall of New York, Littra A., a \$2 bill on the Metropolitan Bank of New York, Littra D, one \$5 bill on the Carter Oak Bank of Hartford, Connecticut, Littra B., a \$2 bill on the Bank of Minnesota. Littra A, nr. 153., a \$1 bill on the People's Bank of Minnesota, Littra S. (The 3<sup>rd</sup> of Jan. 1863, I gave the two above described \$5 bills to Schilling).
- 30 I finished husking the corn.
- 31 I hauled corn and cornstalks, etc.

### 1863

# January

- 1 We had a meeting.
- 2 & 3 I hauled hay from the southern southern forty, among other tasks.
- 4 Sunday
- 5 & 6 I cut up a line between Mitchell's and my land. The 5th Witsack's boys were here and cut rails for the first time.
- 7 & 8 I did various little things. Schilling cut rails the 5th and 6th until dinner on the 7th.

- 30 Sunday

## July

- 1 I went to Waconia and did various jobs. The boys cocked clover, hoed, and then carried clover.
- 2 I went to Chaska with a load of wheat. The boys hoed corn on the new field.
- 3 Before noon, I wrote letters to Sweden and sent the power of attorney in one. I also wrote a letter to John in Eggleston. The boys cultivated corn.
- 4 We went to Scandia. We had a little celebration there.
- 5 I wrote a letter to G.W. Norman in Kirkwood that he should put the boy at Johnson's in the hands of a trustee. I sent the letter today and also the letter with the power of attorney to John in Eggleston. The boys hoed and cocked hay. In the afternoon, I wrote letters to P. Headburg in Denver and to J. Pearson in Willow Gulch.
- 6 Today I sent the letters to Headburg and Pearson. Today I harrowed and sowed rutabaga seeds, hoed around the apple trees, and cocked and hauled hay.
- 7 **Sunday** John A. Peterson from Minneapolis is here.
- 8 9, 10 & 11 We did various jobs. We harvested hay in between the rain showers and hoed corn, sorghum, and squash, around the apple trees.
- 12 Before noon, we set up the reaper and in the afternoon we reaped rye.
- 13 Before noon, I pruned the grapes. The boys hoed and in the afternoon we cocked hay. It was too warm to work.
- 14 **Sunday** Today in the afternoon we had a hard rain.
- 15 Before noon, I pruned grapes. The boys hoed sorghum. John Peterson from Minneapolis is here and went home today.
- 16 Before noon, we did various jobs. In the afternoon, we moved the schoolhouse lot and also in the west meadow.

- 26 We finished reaping the oats.
- 27 We reaped the wheat on the field by Peterman's woods and cocked hay on the meadow.

- 29 Before noon, Elsa and I went to Waconia, and in the afternoon, we reaped the rest of the wheat by Peterman's woods and the wheat on the square piece by the road.
- 30 Before noon, we finished reaping the wheat on the square field and made two turns with the reaper on the west piece of the south field, when about two o'clock it started to rain and then it hailed. I have never seen anything like it—hailstones as large as goose eggs. Thirty-five window panes were shattered in our house by the hailstones. The wheat was pounded down and so about 250 bushels were destroyed, but worst of all was that the bark was scaled off the apple trees. In other words, everything in the path of the storm was destroyed.
- 31 I went to Waconia and sold pork to Adolph and did various jobs. The boys shocked the wheat that the storm had blown down. In the afternoon we took apart the reaper and put together the mower and then we mowed some of the wheat that was beaten down by the hail.

- 19 Today the life insurance agent from Galesburg, Illinois, was here and my wife, Elsa, took out a policy for \$2,000. The boys cultivated and hoed a variety of places. At noon

- we had a hard rain. I wrote a letter to my brother-in-law, John, and a report to the horticultural society in Minneapolis.
- 20 Carl took the mare to the purebred stallion in Chaska, but she would not take him. Ida and Charles Norman were along to Chaska. Axel and Frank hoed the garden and cultivated the corn. I pruned apple trees and grapevines.

- 22 The boys cut hay and mowed in the yard and by the pigpen and along the creek, cultivated the potatoes, and hauled in the hay from the small meadow and along the road. I tied up the grapevines. Today "Nancy" went to Rietz's bull.
- 23 Charles Norman and I went to Leenthrop in Chippewa County. We took the train at Augusta and got off in Granite Falls.
- 24 25, 26, 27 We are in Leenthrop.
- 28 Sunday
- 29 We traveled home from Leenthrop. The boys did various jobs while we were gone. The 27<sup>th</sup>, Carl took the mare to the purebred stallion in Chaska and she took him. Today we took "Betty" to Rietz's bull.
- 30 The boys hayed in the meadow, etc. I pruned and tied up grapevines.

## July

- In the forenoon Carl and I went to Waconia and bought a hay rake, etc. The other boys mowed in the southwest meadow and in the afternoon they cocked hay in the south meadow. Charles Norman picked up Christine Anderson, my niece, at the Augusta Station.
- We hauled hay from the south meadow. Carl went to Waconia with a load of wheat. In the evening, I had a spell with my heart.
- 3 Today Carl hauled two loads of wheat to Waconia. We have cocked hay and hauled hay. Axel went to Birrel Nilson's the other day and helped with a barn raising.
- 4 Today is a holiday. We celebrated it in Scandia. Professor Edgren spoke. The Mixes from Waconia were even there.
- 5 **Sunday** Today we had a baptismal service. Our Emma, Gottfried Swenson, Theodore, and Anna Broberg were baptized.
- 6 The boys mowed and hayed and then hoed. In the afternoon, Mamma and I went to Waconia with Sture, who left for Minneapolis.
- 7 The boys mowed, cut, bunched, and cocked hay and plowed the corn. I did nothing as Professor Edgren and his family were here.
- 8 The boys cultivated the corn, mowed and hauled hay, etc. Yesterday afternoon and last night we had some rain. I sowed turnip seeds on the other side of the railroad tracks.
- 9 I mowed, bunched, and hauled hay, cultivated the corn, and did various small jobs.

- 10 In the forenoon, Axel and Frank cut and mowed hay. I went to Lake Park Hotel and sold raspberries. In the afternoon, we hauled in hay. Carl helped with the shingling of Birrel Nilson's barn roof.
- 11 In the forenoon, I went to Waconia and Axel took the mare to the stallion in Chaska, but she would not take him. Charles and Frank plowed the corn and then we hauled in hay.

- 13 The boys mowed and cut timothy in the field in the southern meadow. I hauled hay and did various jobs. I pruned and trimmed grapevines, etc.
- 14 I cut and mowed the meadow by the road, hauled hay from the south meadow, and hoed in the corn. I finished with the grapes.
- 15 I cut and mowed out by the island and then bunched and hauled in hay. Mrs. Stoughton and Hillman were here.
- 16 Frank and I went to Waconia and had the mare shod. The boys did various jobs. In the afternoon, we hauled hay from the island. We had a big storm.
- 17 I cultivated the corn, hauled fence stakes, repaired fence, hauled hay, etc. The Brunius family was here for a visit.
- 18 Ida, Charles Norman, and I went to Chaska and Carver. I took the breaking plow to the factory in Carver to have it repaired. We stopped and visited with the Bruniuses. Then I took the mare to the stallion, but she would not take him. Mamma says I don't need to take the mare there anymore as she is sure she is pregnant.

- 20 Today, Mamma, Frank, and Charley Norman went to Minneapolis. In the forenoon, we cultivated and weeded the garden and then we repaired the fences. Mrs. Strandberg left us today.
- 21 We cocked hay in the small meadow in the south field, fixed fences, hoed in the garden, etc. and in the evening Mamma, Frank and Charley came home from Minneapolis and Sture came home with them.
- 22 The boys stacked the hay on the small meadow and grubbed out willow bushes in the meadow. I went to Carver and got the breaking plow. Emma went along and she had a visit with the Bruniuses and then I bought a half-fare ticket for my niece, Christine, John Anderson's girl. Mr. and Mrs. Stoughton and Ida Weego were here for a visit. In the evening, Christine Anderson left us to visit at Per Daniel's home. Tomorrow she leaves for Granite Falls.
- 23 The boys broke ground in the small meadow in the south field. It is very sultry, hot, storm-brewing weather. I put new teeth in the sickle of the Wood's Reaper.
- 24 In the forenoon I went to the Waconia mill with grist. Mrs. F.O. Nilsson from Houston and her sister-in-law Mrs. C. Nilsson from Spring Garden rode with me home. They are here to visit and greet old friends and renew their memories of dear old Scandia. It is now 25 years since F.O. Nilsson moved away from here. The boys hoed the garden

- and Sture has prepared the boards (tongue and groove).
- 25 The boys finished breaking sod in the meadow in the south field. They hoed in the garden and Sture is working with preparing the boards. I did various jobs. I took "Maggy" to Peterman's bull.
- 26 **Sunday** Frank Peterson from Minneapolis, and Olson, are here for a visit, and Peterson preached today.
- 27 The boys reaped the oats but we did not tie the bundles. We picked the shoots from the sorghum. Mr. and Mrs. Brunius visited us today.
- 28 The very hot, sultry, storm-brewing weather continues. We have heavy, soaking rains but no change in the weather. Today we did various small jobs. Mrs. F.O. Nilsson and Mrs. S.C. Nilsson and Frank Peterson are here. I wrote a letter to A.J. Drothzen.
- 29 Today Mrs. F.O. Nilsson and Mrs. Christian Nilsson went to Broberg's place. Mamma drove them over there. Tonight they are leaving for Minneapolis. Today we reaped the Saskatchewan wheat on the home field, west of the creek, and then reaped on the other wheat. The storm-brewing, hot, sultry weather continues.
- 30 We reaped a little more wheat, but it is so terribly hot and there is so much electricity in the air, it is impossible to work. Sture tied wheat bundles for Lundsten. After dinner we had heavy rain.
- 31 We finished reaping the wheat in the field by the barn and later in the field alongside the road in the south field. We still have hot, muggy weather. Sture is working for Lundsten.

## August

1 First we turned the oats; it has been lying cut and untied in the rain. Then we reaped on the west part of the south field. Charles Norman has helped us for four days to tie bundles between the rain showers. Sture has tied bundles for Lundsten.

- 3 The boys, Sture, and the girls tied the oat bundles today. It has now rained so much ever since it was cut that we have not had a chance to tie it until today. I am not well, so I was cupped today.
- 4 The boys and the girls have reaped the wheat on the side by Peterman's field and later reaped wheat on the other side of the tracks. I have done nothing.
- 5 Peterman has our horse, "Frank," today and Sture is driving Peterman's reaper. We finished reaping the wheat and I was well enough so I could drive the reaper. Peterman's hired man helped us to tie the wheat bundles.
- 6 This morning at four o'clock, Sture and Charles Norman left for Litchfield to work during the harvest. Carl took them to Delano. Axel and Frank fixed up the stack bottoms and moved the fence. After Carl came back they hauled away the straw. I am not well.

- We stacked the oats and later we stacked three loads of the wheat. Andrew Peterson from Minneapolis is here. He is John A. Peterson's brother.
- 8 Last night we had very much rain. This forenoon I went to Waconia and had "Rock" shod with round shoes. The boys did various jobs and in the afternoon we did various small jobs.

- 10 We stacked wheat the whole day.
- 11 Rain showers all day. Carl plowed in the garden and on the west side of the south field. This is only a "pre-plowing" as it will need to be plowed again. Axel and Frank hoed and I did various jobs.
- 12 In the morning, Carl plowed and the others and I hoed in the garden. Mamma went to Waconia to get the mail and to mail the letter I had written to Norberg in Granite Falls. After dinner we stacked wheat.
- 13 We stacked wheat all day. In the afternoon, I got so sick I could not help. Yesterday we took "Maggie" to Peterman's bull for the second time Late tonight "Molly" calved.
- 14 We stacked the wheat on the north end of Peterman's field. This was new wheat on the other side of the railroad tracks. I could not do anything except instruct them how to do it.
- 15 We finished stacking the wheat. It is beautiful weather.

## 16 Sunday

- 17 Carl plowed and mowed the Hungarian grass [millet]. The other boys and I hoed and did various other jobs. I sent a letter to Schreiner in Hector.
- 18 Carl plowed then mowed. The other boys hoed and cut hay. I hoed and then did various things. John Sundine bought "Molly" today.
- 19 In the forenoon Carl plowed and the other boys did various things. In the afternoon Carl plowed some and then mowed on the west meadow. Axel and Frank threshed for Peter Magnus. I did various jobs. Gideon's son from Excelsior bought three sheep from us today.
- 20 Axel and Frank threshed for Peter Magnus in Scandia. Carl went to Zieman's and threshed at ten o'clock and threshed until dark. John Sundine was here and took the cow that he bought. I did various things. In the afternoon I went to Waconia and sold two bushels of apples and had the shoes fixed on the horses.
- 21 In the forenoon Carl plowed on the barn field, Axel threshed at Zieman's, and in the afternoon we bunched and hauled home the Hungarian grass [millet], totaling three large loads. Afterwards, we cocked the clover along the creek.
- 22 Axel and Frank threshed for Birrel Nilson in the forenoon. Carl plowed, and in the afternoon we bunched and hauled in hay and clover.

### 23 Sunday

24 Carl plowed—Axel, Frank, and I set fence posts on the line between my property and Peterman's. In the afternoon, Axel was sick. Bost and his son came from Excelsior and

- were here and looked over the Russian apple trees.
- 25 Axel, Frank, and I nailed the strips to the fence posts on the wire fence we are building between my property and Peterman's. Carl mowed the second crop of hay and plowed on the other side of the tracks, however, it is so dry that one can hardly plow. The nights are very cool.
- 26 This morning Axel, Frank, and I built the fence and Carl plowed. In the afternoon, the boys hauled manure and I hauled weeds away from the gardens.
- 27 The boys hauled manure and I pruned raspberry bushes. In the later part of the afternoon, it rained.

- 27 Today we have done various jobs. The plowing is done in the southern meadow (ditto in the garden); I also harrowed corn, burned logs in the woods, and worked on the gates. Sundine bought a dozen hens.
- 28 Before noon, Carl and Frank cultivated the corn. Axel hauled and watered the corn and last year's apple grafts because it is so dry. In the afternoon, the boys set posts for the fence between the road and the western meadow. I made gates. In the evening, Sture came home from Minneapolis.
- 29 The boys hauled a part of the old fence by the road where the wire fence is to be.

Carl went to Waconia before noon. I worked on the gates, etc. It is warm and dry weather.

## 30 Sunday

31 I worked on the gates. The boys split fence posts and hewed them out on the southern forty, fixed the cabbage beds, and planted them. The assessor was here. This year the land was valued.

#### June

- Sture, Carl, Mamma, and Josephine went to Chaska. Sture bought tickets to Granite Falls. Josephine had some teeth pulled as she had such bad toothaches. Axel and Frank cleaned the weeds from the apple tree beds and cleaned out the ditch for watering the cattle in the southern meadow. I did various jobs. Last night, we had a quarter-inch of rain.
- 2 Today in the morning, Sture, Ida, Charley Norman, and Freed went to Granite Falls. Axel drove them to the Augusta station. Carl and Frank set fence posts between the southern field and the road. I made gates, etc. We took "Betty" to Rietz's bull.
- 3 Carl went to Chaska for Anton Arndt to locate a spot for a well in the southern forty field. In the afternoon, he drove him home. Anton Arndt, Axel, Frank, and I did various jobs. Today it is **Ascension Day**. Last night the mare foaled, but the young foal is troublesome because it can't stand up.
- 4 The boys hauled part of the old fence between the road and the southern field and dug for water for the cattle out in the pasture, etc. I did various small jobs. It is very dry. We need rain for both the grass and the pasture.
- 5 The boys took away the old fence and burned the trash down by the road, hauled manure, and plowed down the piece where we shall plant strawberries next year. I worked on the gates, etc. The colt is sick so we are spending a lot of time with it.

- 7 Carl and Frank cultivated the corn, etc. Axel did various jobs. I went to Waconia and had hinges made for the gates. In the afternoon, I hung up the gate down by the southern field. Last night the colt died.
- 8 Axel, Carl, and the horses worked on the road. I wrote a letter to Lindberg in Anoka, repaired Oskar's shoe, etc. Today, we got a little rain that freshened the tops of the plants, but the ground is very dry and the grass is drying up.
- 9 Axel and Frank worked on the road. Carl went to Waconia and had the mare shod. In the afternoon, Carl went to Augusta station and met Sture and Ida. They came home from Granite Falls. I did various small jobs.

- 12 I went to Waconia for a letter from Sweden with a draft in it. The boys did various jobs. Today, it is warmer and up to 90 degrees with a strong storm. Today we went to Birrel Nilson's with the mare for the first time. She took him. John Anderson from Granite Falls arrived this evening from the conference in St. Paul. He had missed the train on our track so he must walk to the track in Augusta. Today, in the draft from Sweden was the third sending of our inheritance from brother Samuel, which was \$122.87.
- 13 **Pentecost Sunday** Brother-in-law John Anderson preached today.
- 14 John Anderson went to Minneapolis today. I drove him to Waconia. The boys set the fence posts next to the road. I did various jobs. Saturday night, we had a big rain, which the plants and grass really needed. Now it is muggy and warm.
- 15 The boys hoed, etc., then they went fishing. I did various jobs. Today, brother-in-law John from Minneapolis came with two other preachers, Halvardsson and a Johnson from Iowa. In the afternoon, brother-in-law John and I divided the third sending in the year from brother, Samuel, that had come as an inheritance from Sweden. We took "Nancy" to Rietz's bull. We had been to Peterman's bull before.
- 16 In the morning, we had a meeting in Scandia. Brother-in-law John Anderson preached. In the afternoon, I wrote a letter to Lindberg in Anoka and then trained the grapevines. It rained, so the boys did nothing.
- 17 I wrote a letter to Rydell in Sweden and to Gustaf Norman in Kirkwood, Illinois. The boys hoed corn. John Anderson from Leenthrop went home today and P. Freed went with him.
- 18 Before noon, I went to Waconia. I sent a letter to Sweden and a letter to G.W. Norman in Kirkwood, Illinois, with a draft for \$35 which is their share of the inheritance from my brother, Samuel, and a letter to Carl F. Lindberg in Anoka with a draft for \$10 for the paper, *Bibliotaket* [*The Library*] that came from Sweden. In the afternoon, Mamma and I went to Per Daniel's and greeted George Mattson from Stromsburg, who had come up. The boys cut hay and mowed around the house, the orchard, and by the road.
- 19 First, I trained grapevines. Then, George Mattson came here. The boys hoed corn, etc.
- 20 **Sunday** A young student named Holmgren preached.
- 21 Today, Elsa and I took George Mattson out to John Nelson's for a visit and there was a big rain and hailstorm while we were there. The boys did various jobs, etc.
- 22 Before noon, Carl and I put braces by the fence posts along the road. Axel and Frank hoed the potatoes. In the afternoon, Carl and I nailed wire on the fence while the others cultivated corn. G. Mattson went to Lundsten in the afternoon.
- 23 Before noon, Carl and I nailed fences. Axel and Frank cultivated and hoed in the garden. In the afternoon, we hauled hay from the meadow by the road and the creek

- in the home field, etc.
- 24 Carl and I nailed wire fences. Axel and Frank cultivated the corn. Frank even went to Waconia to bring strawberries to Kohler and took the mail home.
- 25 I mowed and cut hay in the southern meadow, hoed in the orchard, split fence posts and took the mare to the stallion at B. Nilson's for the second time and she took him, again.
- 26 Axel, Carl, and Mamma went to Chaska and took the cow, "Maggie," with her calf. Frank went to Rietz's in the afternoon and hauled hay. I trimmed the grapevines and hoed in the orchard, etc. George Mattson stayed with us last night. He went to Niklas's today.
- 27 **Sunday** Paul Johnson preached today.
- 28 I mowed in the western meadow. We made hay and hauled it in from the southern meadow and hauled dirt by the doors to the barn.
- 29 Before noon, Mamma and I went to Waconia and bought shoes for Anna and Oskar, etc. The boys cut hay. In the afternoon, Axel and Frank hoed and Carl mowed. I did various jobs. It is perfect haying weather.
- 30 Before noon, the boys cultivated and hoed potatoes. In the afternoon, they hauled hay. I made a chicken coop, etc.

## July

- 1 Mamma and I went to Excelsior and sold chickens, butter, and raspberries. We first went to the Park Hotel but they didn't buy anything. The boys cultivated the potatoes in the newly broken field. In the afternoon, they hauled hay, etc.
- 2 The boys cultivated the corn and mowed the last of the hay in the southern meadow and then mowed a part in the western field. I did various small jobs.
- 3 We went to Scandia and celebrated the 4th of July. The 4th is on Sunday, so we celebrated it on Saturday. Mattson from Stromsburg went to Carl Swenson's house today. Many who came from Minneapolis were here today.

- 5 The boys hauled hay the whole day from the southern and western meadow. I went to Waconia and then hoed around the small grapevines. It is quite warm.
- The boys mowed weeds on the Lucerne clover field and in the western meadow. They plowed corn and hoed the sugar beets. The womenfolk hoed the sweet corn. Before noon, I wrote a letter to brother-in-law John in Granite Falls. In the afternoon, I went to Waconia and sent a draft to Granite Falls for the breaking of my land. The hot weather continues.
- 7 The boys mowed the small meadow down by the road and then cut the hay by the milking place. I did various small jobs. In the afternoon, the boys hauled home hay from the western meadow.
- 8 Before noon, we turned the weedy hay in the Lucerne clover field and then cut hay.

- In the afternoon, it rained but we weeded the garden and hoed in the orchard. Mrs. Bergquist and two of her daughters are here.
- 9 The boys and I hoed the sweet corn, etc. In the evening, we went to a meeting in Scandia. Bengt Anderson preached. G. Mattson came here from Carl Swenson's house.
- 10 Today we took the mare to B. Nilson's stallion but she would not take him. The boys hauled hay all day and then went to Niklas Swenson's for a party.

- 12 Mamma and I took G. Mattson to Broberg's and then to Waconia. The boys mowed out by the island and hauled in the weedy hay from the lower end of the orchard. It was very warm.
- 13 The boys cocked hay by the island, etc. I went to Waconia and had "Rock" shod and then I hoed the orchard.
- 14 The boys cocked hay and then cultivated in the orchard and hoed the corn in the new field. This morning, G. Mattson from Stromsburg left from here. I drove him to Waconia, then I hoed in the orchard.
- 15 The boys hauled home the hay from the island and staked it. We have now finished the haying. I did various small jobs. Weego's mother-in-law from Chaska is here and is visiting.
- 16 The boys cultivated corn in the newly broken field. Carl and Mamma went to Waconia and they took the grain to the mill. I mended the horses' fly nets, etc. In the afternoon, I went to a temperance meeting in Scandia.
- 17 The boys split fence posts and stripped the bark from them, etc. I mended fly nets for the horses. Today, we went to B. Nilson with the mare for the 4th time, but she didn't take the stallion.

- 8 Today is Good Friday. The boys fanned seed wheat, piled boards, etc. I did various jobs—I even planted the fruit tree seeds I got from Sweden—white plum, cherries, and red plums. Today it is very nice weather and breezy, so the snow has melted fast.
- 9 In the forenoon, Axel and Frank cut cordwood. Carl went to Waconia and met Sture, who will work for Frank Lundsten. The horse, "Rock," was shod on his front feet. In the afternoon, Axel and Frank piled boards, and did other small jobs. Carl harrowed the large corn field. I did various jobs. It is very beautiful weather with a strong south wind.
- 10 **Easter Sunday** We visited at Per Daniel's house in the afternoon.
- 11 The boys cut cordwood between the rain showers. Sture went with Frank Lundsten to Waconia. I did various jobs. Last night we had a heavy rain storm. In the afternoon, the P.D. Andersons were here for a visit. Tomorrow, C. Norman is leaving for Granite Falls.
- 12 Today, Axel, Frank, and I have bored into 300 sugar maples. In the forenoon, Carl cut wood and in the afternoon he helped us tap the trees. I did various other jobs. It is beautiful weather. Sture is helping Frank Lundsten paint the meetinghouse.
- 13 Axel, Carl, and Frank cut cordwood and hauled home maple sap. The sap is not

- running very well. In the afternoon Mamma and I went to Waconia. It is cloudy weather and the fields are too wet, so we cannot start to plant.
- 14 The boys cut cordwood in between the rain showers and hauled maple sap. I did various small jobs. Sture made a stone boat. It is raining so much that we cannot begin to sow. Today we took the mare to B. Nilson's stud for the first time and she took him.
- 15 The boys cut cordwood, etc. Sture and I worked in the woods and cut down two more timbers for the new pig barn. It is cloudy weather with rain showers. The maple sap is not running.
- 16 Today we started planting. Carl sowed oats in the home field and a section of Peterman's field. Frank harrowed it in and Axel hauled maple sap, etc. I did a variety of small jobs.
- 17 **Sunday** Broms preached.
- 18 Carl sowed 13 ½ bushel oats on 6 ½ acres, and then he began to sow wheat on the large south field. Frank harrowed using the colt and the mare. Sture is hewing foundation logs for the corncrib. Axel is doing various jobs. B. Nilson castrated the lambs this morning and I did various jobs including uncovering the apple trees that had been heeled in for the winter. Mamma is cooking maple syrup.
- 19 Carl is sowing wheat on the large south field. Frank harrowed. I sowed Lucerne clover in the lower part by the garden—that which I sowed last year did not germinate. Axel hauled maple sap and dug holes for the apple trees as well as other jobs. Sture began to work for Frank Lundsten. This afternoon, Carl took Emma to Waconia as she was going to Minneapolis to attend Mrs. Friman's sewing school. Mamma is cooking maple syrup.
- 20 In the forenoon, Carl sowed wheat on the western part of the south field. Frank harrowed. Axel and I worked in the garden and in the afternoon, Carl sowed wheat in the barn field. - 21 Carl rolled and Frank harrowed the whole day. Axel and I planted 98 walnut trees.
- 22 Today we did nothing. In the forenoon it rained and in the afternoon it snowed and was cold.
- 23 The boys cut cord and stovewood and did various other jobs. The snow melted off in the forenoon and I did various jobs.
- 24 **Sunday** Last night it snowed again and it is cold today, so the snow will not melt.
- 25 This morning the snow has melted. The boys cut wood for the stove and in the afternoon Carl sowed wheat on the other side of the tracks. Axel and Frank hauled maple sap and cut stovewood. Mamma is cooking maple syrup and I did various other jobs. August Krause was here today.

- 26 Carl finished sowing wheat on the other side of the tracks. We have sown 38 bushels of wheat on 28 ¾ acres. Frank harrowed and Axel hauled maple sap, etc. I went to Chaska to be a witness for J. Nelson in his railroad case but we had to go home and the case will not come up again for another three days. We took "Pearly" to Peterman's bull for the fourth time.
- 27 Today we have done various jobs. We have had rain and thunder. The boys fanned wheat.
- 28 Carl took the mare to B. Nilson's stud for the second time and the mare took him. Later, Carl went to Waconia to get clover seed. Axel and Frank chopped wood for the stovewood, etc. I finished fixing the privy. In the afternoon Axel and Carl hauled cordwood out of the forest from the strip along the north line where Peltz is to have his road. I planted willow trees, and Frank helped me.
- 29 I returned to Chaska to witness for John Nelson's railroad case but the case did not come before the court today either. The boys fenced around the newly broken field, rolled the wheat, and did various other jobs.
- 30 N. Swenson, P.D. Anderson, and I went to John Nelson's land to determine what damage had been done to his property by the north railroad line. The boys grubbed stumps on last year's newly broken field. Today we took the spouts out of the maple trees. This year we have gotten very little syrup—not even 20 gallons and what we did get is very thin and has no good flavor.

# May

- 2 Axel and Frank grubbed stumps on the newly broken land. Carl harrowed and plowed by the pasture and harrowed the new field, etc. I top-grafted the plum trees, etc. It is stormy weather and in the afternoon it was cold and rainy.

- 15 Sture and Carl are working on the barn. Axel and Frank husked corn on the square field in the southern section and finished it. I dug up boxelder trees and finished.
- 16 **Sunday** Broms preached. My brother-in-law, John, is also here. It rained all day.
- 17 Sture and the other boys worked on the barn the greater part of the day and then husked some corn. I dug up boxelder trees and did various jobs. Brother-in-law John is with Lundsten and B. Nilson.
- 18 In the morning, the boys nailed shingles on the pig barn. I did nothing as my brother-in-law, Anderson, is here. In the afternoon we went to a meeting in Scandia. Sture and Frank nailed shingles. Broms preached.
- 19 The boys hauled cornstalks from the square field and finished nailing shingles on the pig barn. I went to Luedloff's to get fruit trees.
- 20 The boys hauled in the sugar beets and topped them. Sture helped to cut off the tops. I did various things. In the afternoon I went to Waconia with boxelder trees and sold them to Volkenant. Today my brother-in-law, John Anderson, went home to Granite Falls. Per Daniel drove him to Augusta.
- 21 Axel and I dug up apple trees and sooted the chimneys. Carl and Frank hauled in the carrots and husked corn. Sture hung the door to the kitchen and worked on the barn. Last night we had a hard freeze and it is very cold.
- 22 Sture worked on the barn. Axel, Carl, and Frank and three of the girls husked corn and finished. The boys hauled some loads of cornstalks. I dug up some of the Swedish apple trees in the orchard and later it snowed.
- 23 **Sunday** It is snowing. We had planned to go to Gotaholm to a meeting, but the

- weather made it impossible to go. A Swedish tramp by the name of Frank Anderson was here last night from Mankato.
- 24 The boys hauled cornstalks and manure. Sture put the window casings on the barn windows and painted them. I did little things in the orchard. There is a northwest wind and it is very cold. The ground is frozen, so I cannot heel in the apple trees that I have dug up. Winter came before I was finished with the orchard. Neither have we plowed our corn fields.
- 25 The boys are hauling manure to the gardens and doing various jobs. Sture worked on the barn doors. I did various jobs. It is still cold.
- 26 Carl and Frank are hauling home maple branches from the woods and also hauled manure to the gardens. Today I have heeled in a few apple trees and Axel has helped me with the work in the orchard. In the forenoon, Sture went to Waconia and had "Frank" and "Rock" shod. It is not quite as cold.
- 27 Carl and Frank each hauled two loads of cordwood to Waconia with both teams. Sture is working on the barn and Axel helped Sture in the forenoon and in the afternoon, Axel helped me to dig up and heel in apple trees in the orchard. Today is mild and sunny.
- 28 This morning, Carl and Frank hauled two loads of cordwood to Waconia. I butchered a ram. Sture and Axel did various small jobs. In the afternoon, both Carl and Frank plowed on the corn fields. Axel and I worked in the gardens. Sture hung the large doors to the barn. It is mild and sunny today.
- 29 Carl and Frank plowed on the corn fields. Sture did various things in the barn. I pruned back the grapevines down in the orchard and also heeled in trees, etc. Axel did work in the orchard and other small jobs. It was clear weather, but colder today than yesterday.

31 Two of the boys plowed the south field on the other side of the track where we will plant corn in the spring. One of the boys is working in the orchard and doing various other jobs. I am pruning the grapes and doing other small jobs. Today we had grand weather and it was warm. Sture is working for Frank Lundsten at Koren's.

#### **November**

- In the forenoon, Axel and Carl plowed the field on the other side of the tracks where we will plant corn in the spring. I pruned grapes. Frank did various jobs. In the afternoon, the boys plowed in the garden and I went to Waconia and promised wheat to the mill. It is very nice weather.
- 2 Axel and Carl hauled two loads of wheat to the mill in Waconia and sold it to them. I pruned back grapevines. Sture worked on the barn and boarded up the pigpens.
- 3 In the forenoon, Carl and Frank each hauled a load of wheat to Waconia. I pruned the last of the grapevines Sture and Axel heeled them in. In the afternoon, Carl

- harrowed in the south field. Frank plowed in the garden and in the cabbage beds. Axel and I dug up apple trees and heeled them in. Sture is working in the pig barn cellar.
- 4 Carl hauled two loads of cordwood to Waconia. Frank plowed the western part of the home field where we sowed the rye that did not germinate. Sture went to Scandia and built a fence around the meetinghouse. Axel did various jobs. In the forenoon, I went to Waconia and paid Oberle for the self-binder and Broberg for the threshing. It is dry and grand weather. There is a cold wind with a northwesterly direction.
- 5 Carl and Frank hauled two loads of cordwood each to Waconia. In the forenoon, Axel worked on the road. In the afternoon he grubbed the big maples. Sture repaired the organ. In the afternoon, I did various jobs in the garden. We had a hard freeze last night but today it is mild, spring-like weather.

- In the morning I went to Waconia and helped to load cordwood on the car that we are to send to Broms in Gibbon. Sture and Axel did various things. Carl hauled a load of maple cordwood and Frank a cord of basswood that we loaded on the car to Broms. In the afternoon, Carl and Frank hauled wood to Waconia with both teams. I did various things. Axel grubbed. Sture hung the doors for the pig barn. It is dry and grand weather with cool, clear air. The heifer "Molly" calved yesterday. The schoolteacher, Mrs. Pettijohn, began boarding with us today. She will pay \$8 a month for board during the school year.
- 8 In the forenoon, Sture, Axel, and I butchered a pig, etc. and did other small jobs. In the afternoon, Sture and Axel grubbed out the large trees. I cut up the pork, etc. Carl and Frank hauled two loads of cordwood each to Waconia. In the evening it started to snow but it is not cold.
- 9 Sture and Axel grubbed out large trees in the north end of the field broken two years ago. Carl hauled home cordwood from the southern forty. Frank and I covered the strawberries with the straw and Frank harrowed the home field. I did various jobs. The snow that came last night has melted away today. It is great weather.
- 10 Sture, Frank, and Axel grubbed the big trees. Carl hauled two loads of cordwood to Waconia. Mamma and I were out at John Nelson's. I went there to dig up a dozen white ash trees that I will plant next spring. Today it is very nice weather. Today I sent 20 scions to O.F. Brand in Faribault.
- 11 Carl and Frank hauled two loads of cordwood down to Waconia. Axel grubbed the large trees. I cut scions and heeled in the ash trees, etc. Sture is getting ready to go to Minneapolis and Chicago.
- 12 Frank drove Sture to Waconia. Carl and I went to Chaska and Carver. I received my prize money for the fruit. Axel, Renius, and Gottfried Swenson grubbed out large trees on the north side of the new field. Frank hauled a load of wood to

Waconia in the afternoon. It is beautiful weather.

- 14 Today all our boys, along with Renius and Gottfried Swenson, grubbed north of the field by the barn. In the afternoon, Frank went to Per Daniel's and butchered a pig. I did various small jobs. Today Per Daniel received a dispatch from Granite Falls that my brother-in-law, John Anderson, died this morning.
- 15 Axel and Carl, along with Renius and Gottfried Swenson, grubbed the large trees. I went to Waconia and paid all my bills to Glashan, Wostrel, Shirmer, and Eiselien. It is still dry and great weather.
- 16 Today, in the morning, Elsa and I, along with Per Daniel Anderson and his wife, left for Granite Falls (or more correctly, Leenthrop congregation), to go to the funeral for my brother-in-law, John Anderson. We got on the train at Augusta. Our boys and Renius and Gottfried Swenson, grubbed out large trees on the clearing.
- 17 Our boys and Renius and Gottfried Swenson grubbed out large trees.
- 18 Renius Swenson and our boys grubbed out large trees. Today we buried my brother-in-law, John Anderson. The Leenthrop Church was packed with people who mourned with us in our deep sorrow and, like us, miss our departed loved one. His commission to witness about his Master has now expired. Sunday, the 6<sup>th</sup> of November, 1887, he preached his last sermon, and nine days later he was gone. His text was Jeremiah 8:20 and the people said it was the most powerful and heart-stirring message they had ever heard. He said that "as a witness of Jesus Christ and as a messenger of the Gospel, he was free from the blood guiltiness of the souls who heard him if it was the last time that he spoke to them." I believe, when I heard that besides some other utterances of the last weeks, that the spirit of God had let him understand that his work would be very soon ended. Now his spirit has again returned to God who gave it to him, and he is in the home of the Blessed.
- 19 Today we had a strong, northwesterly wind and strong storm here in Granite Falls. Mamma and I went to Henry Anderson's in Leenthrop. We were not able to go out visiting with anyone because of the storm. Renius and our boys grubbed out large trees in the clearing.
- 20 **Sunday** Mamma and I were at the meeting in Leenthrop.
- 21 Mamma and I, along with Per Daniel's wife, Carolina, left for home. Per Daniel is staying on in Leenthrop for a few days. John Anderson [brother-in-law John's son] drove us in to Granite Falls. At 1:30 we got on the train and at two o'clock the train left Granite Falls and arrived at Augusta Station at five o'clock. On Thursday, the 17<sup>th</sup>, Edward Johnson from Litchfield came here for a visit. Carl and Edward met us in Augusta. Oscar Norman went with us home from Leenthrop.
- 22 The boys are cutting the branches off the trees they have grubbed. They burned the brush. I did nothing. In the evening we had a meeting. Broms preached.
- 23 The boys are working in the clearing. I did various jobs including cutting scions.

- Edward Johnson returned home to Litchfield on the morning train from Waconia. It is cold and cloudy today and it looks like it will snow.
- 24 Today is **Thanksgiving Day** for a good harvest. We had a praise and prayer service in Scandia. Mr. Pettijohn is here visiting his wife who is boarding with us. We got a little snow overnight. It is mild, nice weather.
- 25 The boys are cutting off the branches and burning them in the clearing. I wrote letters most of the day. In the afternoon we had a snowstorm from the south. Still nice weather.
- 26 In the forenoon the boys went to Waconia and bought boots, shoes, felt shoes, and gloves. Oscar Norman was with. At eleven o'clock it started to snow and it has snowed the whole day. This afternoon, we did nothing.
- 27 **Sunday** An itinerant preacher by the name of Sjolander preached. The heifer "Mia" calved today.
- 28 Today the boys and I did various small jobs. It is very cold and clear weather. Carl went to the mill with grist.
- 29 Today we butchered the two old sows and the barrow that was lame. Per Daniel helped us butcher. It is cold but beautiful weather.
- 30 Carl and Frank were at Per Daniel's and helped him butcher. Axel is doing various jobs. Oscar Norman is sawing wood for the stove. I did various small jobs. Today we took the heifer "Rose" to Peterman's bull for the first time.

### **December**

- 1 Carl and I went to Carver with the two old sows and the pig. We sold the pork to Hebeisen. We had a big snowstorm but it is so warm that both we and the horses were wet. We now have enough snow for perfect "sleighing."
- 2 In the forenoon, Carl went to Waconia and had the horses, "Frank" and "Rock," shod. Mamma and Emma were with him. Axel and Frank fanned wheat. In the afternoon Carl and Frank hauled cordwood for Birrel Nilson. Axel hauled the manure out of the sheep barn. I did various things. It is thawing, so the water is dripping from the eaves.
- 3 Carl went to Carver and had the mare and the colt shod at Peterson's Smithy. On the way there it started snowing and later it rained, so it is not very pleasant to be out. Frank went to Waconia this morning. The other boys and I did nothing.

- In the forenoon, Carl and Oscar Norman each hauled a load of wood to Waconia and in the afternoon they hauled two loads of wheat. The other boys did various other small jobs. I wrote a letter to A. Tjernlund in Denver. Yesterday we had a strong and cold northwesterly wind. Today it is mild and nice weather. We took "Nancy" to Peterman's bull for the fourth time.
- 6 Carl and Oscar Norman went to Stoughton in Chaska with two cords of maple wood.

- The other boys did various other jobs I wrote a letter to my brother Rydell in Sweden telling him about my brother-in-law John Anderson's death, etc.
- In the forenoon, Carl went to Waconia with a load of wheat. I also went to Waconia to the dentist with Ida and Oskar so they could have some teeth pulled. I mailed the letters to Tjernlund in Denver and Rydell in Sweden. In the afternoon we had a meeting in Scandia. F. O. Broady had or rather is having meetings in the interest of the seminary. Broady stayed with us. "Fanny" calved today.
- 8 In the forenoon, Carl drove Broady to Waconia. Frank hauled a load of wood to Waconia and in the afternoon, Carl hauled a load of wood to Waconia. The others cut cordwood and I did various small jobs.
- 9 Axel and Carl hauled two loads of cordwood to Stoughton in Chaska. Frank did various other jobs. Oscar Norman worked for Frank Lundsten yesterday and today. I did various small jobs. It is mild weather, so the snow is melting.
- 10 Today, Axel, Oscar Norman, Emma, and I went to the market in Waconia. I sold "Fanny" and her calf on the market to John Sundine. Carl hauled a load of basswood to Waconia. About noon it started to snow and it snowed the rest of the day. The children went to choir practice in the evening.

- 12 Carl and Oscar Norman each hauled two loads of cordwood to Waconia. Axel and Frank did the chores and chopped cordwood. I did nothing. At two o'clock a dispatch arrived from Granite Falls telling us my sister, Maja Stina, died last night. It has been just four weeks between John Anderson's death and the day his wife Maja Stina died, so they were almost allowed to go together to meet their Lord and Savior. Yes, blessed are they that die in the Lord, for they shall obtain rest from their work and pain.
- 13 Mamma and I went to Granite Falls in order to attend the funeral for my sister, Maja Stina.
- 14 We went to the church and viewed the body.
- 15 We buried my sister, Maja Stina. F. Peterson from Minneapolis preached the funeral sermon. The church was filled to the last seat, and they all sympathized with the sorrowing in their sorrow and loss of the departed. These two, John Anderson and his wife, now rest side-by-side in the same and their soul and spirits are in Paradise in the abode of the saints. Sister Maja Stina died suddenly. A few moments before her death she had had an intense time of prayer to her God and Savior, together with her children. At that time, she poured out her heart in a burning prayer of intercession for her relatives, especially for her brother, Rydell, in Sweden, then she sang a song of praise about the heavenly inheritance that she was waiting for. Those of her children who had families left, and only Frances was at home with her mother. It was late in the evening and as Maja Stina felt tired and sleepy, she laid down on the sofa to rest for a while, and as she fell asleep, she

- slipped into her last sleep, but think how blessed to die at such a time! Just as she had finished a burning prayer of intercession and had sung her Master's praises, then to go almost directly from the time of fellowship into His presence. My sister, Maria Christina, was born January 4, 1826, and died December 11, 1887, and so she was 61 years, 11 months and 7 days old at the time of her departure.
- 16 We went to the meeting in Leenthrop. F. Peterson of Minneapolis preached. In the evening, we went over and visited with my brother-in-law, L. Johnson.
- 17 Mamma and I went on the train home. The train was delayed, so we did not get to the Augusta Station until half past six. During the time we were away, the boys cut cordwood and hauled it to Waconia.
- 18 **Sunday** Broms preached. We had communion.
- 19 Carl and B. Nilson hauled wood to Waconia. The other boys and I butchered a pig and did various other jobs.
- 20 In the forenoon we went to a meeting in Scandia. Broms preached. Today we have a snowstorm from the northeast, so in the afternoon we did nothing.
- 21 Today we also have a snowstorm, so the boys did no work. I wrote a letter to Rydell in Sweden that sister Maja Stina was dead. I sent a letter to John Harris in La Crescent about the Russian apple trees.
- 22 The boys tended to the livestock and did the chores. The boys cut some cordwood but it is too cold. I did various small jobs. Today I mailed the letter to Sweden. Today we took the heifer "May" to Peterman's bull.
- 23 The boys tended to the livestock and did the chores. They also cut cordwood for a short while. After dinner, Carl and Ida took Mrs. Pettijohn to Waconia and the teacher continued from there home to Excelsior. I did various things.
- 24 The boys tended to the livestock and did the chores. The boys cut cordwood for a while but it was too cold. Carl went to Henry Schraan in Waconia for medicine for the horse, "Maid." I did various small jobs. We now have so much snow the roads are hard to drive over with a load on.
- 25 Christmas Day (Sunday) We went to a meeting in Scandia.
- 26 Today we did nothing. In the evening there was a meeting in the meetinghouse. They had a decorated Christmas tree in the church. Broms and two hired men from Clear Lake were there. I stayed home in the evening.
- 27 We went to the meeting in Scandia when Broms preached. Henry Schraan was here and treated the horse "Maid" for the swelling in her right leg.
- 28 Today it is very cold with a northwest wind, so we did nothing. In the evening we went to the meeting in Scandia. Broms preached.
- 29 In the forenoon we did nothing. In the evening the whole congregation went to Birrel Nilson's for a party and to dedicate his new house.
- 30 Today Brother Broms went home and Emma and Albertina Nelson went with Broms to Gibbon to help with the Christmas program in Gibbon. Around noon it started to

- snow and also to blow and all afternoon we had a hard snowstorm. We did no work today.
- 31 Today we have had a snowstorm all day, so we have not done any work.

#### 1888

# January

- 1 **New Year's Day** (**Sunday**) Today it is clear weather but there is so much snow that we had no meeting in Scandia.

- 12 Before noon, Carl and Frank shoveled the road to the schoolhouse. Axel cut cordwood. In the afternoon, Carl went to Waconia with a saw log. The other boys cut cordwood. I made spouts for the molasses kitchen. The railroad is blocked with snow, so we don't have regular mail.
- 13 Axel, Carl, and I went to the election and came home at two o'clock. Carl went to Waconia from the election. Some of the boys cut cordwood for a while. I made sap spouts. It is extraordinarily cold and the snow is three feet deep.
- 14 The boys fanned wheat and in the afternoon, Carl went to Waconia with a load of wheat. The other boys cut cordwood. I was cupped today because I am bothered with the lumbago pains.
- 15 Before noon, Carl and G. B. Nilson hauled a load of wheat to the Waconia elevator. G.B. Nelson is doing some of our hauling as we have hauled cordwood for him. In the afternoon, Carl went to the Waconia mill with meal and hauled home elm boards. The other boys cut cordwood and cleaned out the sheep barn. I did nothing. I sent a letter to Harry Anderson in Granite Falls and asked if he had received the money I sent. In the afternoon, Frank took "Nancy" to Broberg's bull.
- 16 Carl went to Waconia two times for lumber and he took home grist from the mill. The other boys cut cordwood. Today I was cupped again as the lumbago is no better.
- 17 The boys cut cordwood, and hauled the hay that was in the south barn to the north barn and did other small jobs. I am for the most part in bed. In the evening, all the children went to the protest meeting held in the schoolhouse.
- 18 **Sunday** The children went to the meeting and from there to John Nelson's for a dinner. They came home at eleven o'clock at night.
- 19 The boys cut cordwood from the tops of the trees after they were sawed and lain in the woods. Carl went to Waconia with butter that he is sending by train to John Harland in Minneapolis. I wrote a letter to Drothzen in California and a letter to P. Headburg in Denver since I didn't receive an answer to my other letter. I am better in health today.
- 20 The boys cut cordwood. I did various jobs in the carpenter shop. Today a west wind is blowing and it is cold weather.
- 21 The boys cut cordwood. I did various jobs in the shop. Today we have a strong storm from the northwest and it is very cold. The snow is as deep as it has been anytime this winter.
- The boys cut down some of the elms in the woods for stovewood. I did various small jobs in the shop. The storm is over, but it is just as cold with a northwest wind. A book agent from Carver settlement was here overnight. His name is Ohman.
- 23 Today we are having a snowstorm. Frank and Oscar Norman went to Norwood to a prohibition contest. The other boys did various jobs and tended the animals. Carl went to Waconia to meet Broms, but the train didn't go from here to Gibbon, so he could not come. I fixed Mamma's spinning wheel, etc.
- 24 Axel and Carl cut stovewood from the dry elms in the woods. I did various small jobs in the carpenter shop. We have a cold northeast wind and no sign of spring weather yet. Frank and

- Oscar Norman came from Norwood at ten o'clock in the evening. They had walked since there were no trains running.
- 25 **Sunday** Today we have a strong whirling snowstorm with a northeasterly wind.
- 26 Before noon, Carl and I went to Hjortson's. I signed a bond for G. B. Nilson because he has been elected as our township treasurer. I also signed a bond for Hjortson. After that, we did various little things. We had a lot of snow last night. The roads are not passable.
- I worked in the carpenter shop. Carl greased the harness. The other boys cut cordwood and stovewood. In the evening, Carl and O. Norman went to the spelling school held at John Nelson's schoolhouse.
- 28 Today, Elsa and I went to John Nelson's for a visit. The boys cut cordwood and did other various jobs. Today there was a southern wind so we are hoping for milder weather.
- 29 Before noon, I wrote a letter to the *Svenska Amerikanska Posten*. In the afternoon, Mamma, Carl, Emma, and I went to Waconia. We got the last payment for the cordwood from Booth's. The boys cut stovewood from the old basswood by the pigpen. Today we have beautiful weather. The snow is not melting much.
- 30 Today is Good Friday. Before noon, we went to a meeting in Scandia. Brother Broms preached. In the afternoon, we did nothing. It is sunny weather with a cold northwest wind.
- 31 Axel and I began to make molasses troughs. The other boys did various other jobs and cut some stovewood. Carl went to Waconia.

# **April**

- 1 **Sunday** (**Easter Day**) We had a meeting and communion. Broms preached.
- 2 First I butchered a calf, then Axel and I made sap troughs. The other boys cut stovewood from the old basswood trees by the pigpen.
- 3 Before noon, we went to a meeting in Scandia. Broms preached. In the afternoon, we worked on the sap troughs. Carl went to Waconia and had the horses shod. Bergren is here for a visit. Today it is mild weather, so the snow has melted a little.
- The boys hauled the haystack into the barn that stood by the sheep barn. They hauled hay from the south barn to the north and cut stovewood, etc. I carved in the molasses troughs. Today it is mild weather with thunder and rain. In the evening, there was a gold contest against liquor and beer in the schoolhouse. Hjortson's son won the medal.
- I hewed and carved the molasses troughs. The boys cut wood, drew water out of the cistern, and hauled lumber from the pasture north of the barn. Today we have a chilly west wind.
- The boys chopped wood and began to haul out cordwood from the clearing. I carved the molasses troughs and finished. We made 56 troughs. The snow is slowly melting but it is still two feet deep on the level ground.
- The boys hauled out cordwood from the clearing and cut cordwood and stovewood. I did various jobs. The school teacher, Mrs. Pettijohn, came here today.
- 8 **Sunday** Today the snow has melted fast. It is very beautiful weather.
- 9 Before noon, the boys hauled out cordwood from the clearing. I did various jobs. In the

- afternoon, it rained, so we did nothing. Today summer school began. Mrs. Pettijohn will board with us.

- 12 Before noon, the boys cut stovewood. In the afternoon, O. Norman and Carl hauled cordwood. Axel, Frank, and I began to tap the maples. We tapped 100 trees.
- 13 Today we began to cook the syrup. We gathered 80 pails of sap and tapped 90 other maples. We painted fence posts, piled the lumber, and did various other jobs.
- 14 The boys cut cordwood and gathered sap. Carl went to Waconia. I helped Mamma with the molasses; otherwise, I uncovered the strawberry beds, etc. Today I sent a letter to Droz in Cleveland, Ohio, ordering cupping oil. I also mailed a postcard to O.F. Brand in Faribault, and one to *Svenska Posten* in Minneapolis. Today it is beautiful weather. Most of the snow is gone.
- 15 **Sunday** Broms preached but he is not well.
- 16 Before noon, the boys tapped more maples and in the afternoon did various other jobs. I dug up the heeled-in apple trees. Today, Oscar Norman went to Excelsior to work for Latham. Mamma cooked syrup.
- 17 The boys gathered the maple syrup and cut stovewood, etc. Last night, we had thunder and rain so we couldn't begin to sow. Today there is a strong wind and it is cold. In the afternoon, Carl and Mamma went to Waconia. I dug out more apple trees, etc.
- 18 Before noon, the boys cut cordwood. In the afternoon, Carl sowed oats on the southern hill in the southern field. Axel and Frank gathered maple sap, etc. Last night we had a hard frost, although the sap is running. I packed apple trees to send to O.F. Brand in Rochester. Today, Senn (Bradhouse's son-in-law) was here for 20 bushels of seed wheat.
- 19 Today, the sap is running fine after a freeze last night. The boys gathered 155 pails of sap. Axel and Frank worked for the most part with the syrup kitchen. Before noon, Carl and I went to Waconia. Today I sent 24 apple trees to O.F. Brand in Faribault. In the afternoon, Carl sowed oats in the southern field.
- 20 Carl sowed oats in the home field on the western side of the kitchen. In the afternoon, Frank sowed wheat in the home field. Frank harrowed oats and finished. Today, the sap ran good. They gathered 200 pails. I did various small jobs. Mamma cooked the syrup.
- 21 Before noon, Carl and I went to Waconia and sold apple trees and boxelder trees. Pettijohn came home with us. Axel gathered sap. Frank harrowed. In the afternoon, Carl sowed wheat in the southern field by the road. Frank harrowed and Axel gathered sap. I made plum grafts, etc. Today it was warmer weather. Mamma cooked the syrup.
- 22 **Sunday** In the afternoon, we buried Bradhouse out by the Moravian church.

- 23 Carl sowed wheat and finished in the southern field and began to sow in the barn field. Axel grubbed stumps before noon, on last year's new field and in the afternoon, he gathered maple sap. Frank harrowed the whole day using the mare and the colt. I did various jobs. Lambrecht came for apple trees.
- 24 Carl sowed wheat in the barn field and on the newly broken field. Frank harrowed. Axel worked in the clearing. I top-grafted apple trees, etc. Mamma cooked syrup. We have a little over 40 gallons.
- 25 Frank harrowed on the newly broken field. Carl went to Winkel's place. Axel dug holes for the apple trees. In the afternoon, Carl went to Waconia and hauled Broms's household things from the Waconia depot to Scandia. Axel and Frank worked in the newly broken field. I planted apple trees by the pig barn.

I set out grape cuttings, etc. Today it did not rain and in the afternoon, the sun shone. Today, I received the medicinal oil from Droz in Cleveland, Ohio. The first draft I sent them was lost but the second reached them.
- 26 The boys marked out corn and sweet corn on the southern side of the track and planted sweet corn, burned the grub on the line, and worked some in the clearing. I planted spruce and pine seedlings that Luedloff had sent to me. In the afternoon, it was cloudy weather, again.
- 27 **Sunday** Today, it is raining.
- 28 Before noon, Mamma and I, with Frank, went to a funeral in Waconia for Peterman's mother. We even took home the grist from the mill. Carl took the mare to Slectha's stallion

- in Waconia. It was the first time he took her to breed. In the afternoon, the boys marked out for corn and planted a part of it on the southern side of the track. I planted the evergreen bushes and finished. Today "Blues" and "Lady" calved.
- 29 The boys planted corn and potatoes on the other side of the track, and broke the grass strip between the field near the barn and the new field. Before noon, N. Swenson castrated the pigs. Today, I started setting out the apple grafts. Today it is dry weather but cool in the air.
- 30 The boys racked and burned in the clearing, etc. I planted apple grafts. In the afternoon, it rained some.
- 31 Before noon, Carl went to Waconia and had the breaking plow sharpened. Axel and Frank raked and burned brush in the clearing. In the afternoon, the boys planted potatoes. I planted apple grafts the whole day. Last night, we had frost. Today, it is dry weather with a cool northwesterly wind.

#### June

- Before noon, the boys worked on the clearing. In the afternoon, they began to break the clearing. I planted apple grafts the whole day and finished it except for some plum grafts that I will set out tomorrow. We are having clear weather but the air is cool.
- 2 Carl and Frank broke in the clearing the whole day. Axel planted potatoes before noon on the broken field. In the afternoon, Mamma and Axel went to Waconia. Before noon, John Nelson, John Lundsten, and G. B. Nilson were here and we made the church statistics to send to the conference. In the afternoon, I planted plum grafts, etc.

- 4 The boys finished breaking the clearing, harrowed it, and planted corn. Then they sowed timothy seed on the other side of the track, harrowed it in, and scraped with the scraper by the pigpen. I pruned apple trees the whole day. A strong storm from the south today.
- 5 The boys plowed for squash, hauled dirt to the road leading to the pig barn, hoed in the orchard, and harrowed the corn fields. I trimmed the apple trees. Mr. Stoughton from Chaska came here at noon. John Nelson and Swanberg were here for dinner (they were here to inspect the buildings for fire insurance). Western storm and cloudy, but no rain yet. In the afternoon, the air was quite cold.
- The boys plowed and harrowed in the orchard and planted sugar beets, and then they hoed in the orchard and did other jobs. I pruned trees the whole day.
- Before noon, it rained, so we did nothing. In the afternoon, Carl went to Waconia and Mamma went with as far as Mrs. Broms's house. Axel and Frank did various jobs. I trimmed apple trees, etc.
- 8 Carl and Frank hauled two loads of wheat to Waconia. Axel hoed in the orchard, planted sugar beets, and finished with other jobs. I trimmed apple trees, etc. Assessor Lambrecht was here today and valued both the personal and real estate property. Today, we took the mare to the stallion for the second time, and she took him. - 12 B. Nilson and I went with P.D. Anderson to Chaska to testify for him as he is trying to get a pension. The boys did nothing. The jeweler, Olaf Hanson, came here last night. In the afternoon, my brother-in-law Olaf Johansson from Litchfield came here from a Farmers' Alliance Meeting in St. Paul. We are still having nice weather.

- 14 Today we did nothing as we had company. In the afternoon, my brother-in-law Olaf Johansson and I went to visit Niklas Swenson. During the night it snowed and rained.
- 15 Today we had rain showers and we did no work. John Anderson (younger) and his wife from Granite Falls came here. They came from Eggleston and Vasa.
- 16 We have had light rain most of the day, so our snow has melted and we cannot use the sleigh, but this evening it turned colder and snowed. In the afternoon, Sture and I went to the meeting in Scandia, where we were to vote on whether or not to keep Brother Broms as our pastor for another year. There were so many complaints he was not re-elected. As far as I am concerned, I am pleased with Brother Broms, especially when I realize that I, myself, have many weaknesses and sins, yes, even follies, so I dare not complain about him as I, myself, have more faults than he. Those that complained would not look at it in that light, but such is man. May God have mercy on our church and on us.
- 17 My brother-in-law, Olaf Johansson, from Litchfield, returned home today. Sture drove him to Delano. Carl drove Olof Hanson to Augusta and then went to Waconia to get John Anderson's trunk. The roads are bad—partly ice and partly bare dirt. Frank started school today and Axel did the chores.
- 18 Carl and I went to Waconia and the boys did various jobs. John Anderson and his wife left here and went to P.D. Anderson's house today. Last night and today it is very cold. Frank is going to school.

- 19 Today we have a deep sorrow when our beloved daughter, Anna Isabella, died at 15 minutes past 12 noon. She was born May 14, 1872, and died September 19, 1889, at the age of 17 years, 4 months, and 5 days. She was always so kind, quiet, and tolerant that our loss and sorrow is heart-rending to all of us, but in our deep sorrow, we have this comfort that she went away happy in her faith in her dear Savior, Jesus Christ. As Sture and Carl were not at home, she sent a greeting to them that she was "Happy in Jesus." This she said only a few minutes before she died...........Later in the afternoon we went to Waconia and sent a telegram to Sture and Carl in Granite Falls telling of her death. We also ordered a casket.
- We went to Waconia two times, first to get the casket, and then to get the dispatch from the boys.
- 21 Frank went to Augusta and met Sture and Carl. Axel, Frank, and Theodore Broberg dug the grave.
- Sunday Today we buried our beloved daughter, Anna Isabella. Rev. M. Fridlund made the arrangements for the songs and preached the funeral sermon. His text was the 90<sup>th</sup> Psalm, a prayer by Moses. The songs here at the house were Gospel hymns number 20; then after prayer, number 88 from "Pilgrim Songs;" number 2, in the church, "Pilgrim Songs" number 2, number 59, the 2<sup>nd</sup> and 3<sup>rd</sup> verses; then Gospel hymns number 361; at the grave, "Pilgrim Songs" Number 2, song 191. Now we have followed our dear Anna to her final resting place for her earthly remains, but her soul is now in Paradise with her dear Savior, Jesus Christ. May God grant that all in our family may live their life with our God and Savior Jesus Christ during the remainder of our pilgrimage so that we may meet our dear ones with Jesus. Then on Sunday evening, M. Fridlund preached his farewell sermon. His text was from the prophet Amos, "Prepare to meet thy God."
- 23 Mamma and I visited at John Nelson's house. Frank drove Sture and Carl to Augusta as they are returning to Granite Falls for harvest work. In the afternoon, Frank plowed. Axel

- 4 The boys cut wood for the stove at home and also made sap troughs. Sture went to Waconia. I made a cover for the syrup trough, etc. It is beautiful weather, but the ground remains hard [frozen].

### 5 Sunday

The boys cut cordwood and made sap troughs, etc. In the afternoon they started to tap the maples. I did various jobs. Yesterday "Molly" was with the Peterman's bull for the second time.

- The boys tapped the maples and gathered sap. I got things in order to cook the sap and we started to make the syrup. Today we took "Blossy" to Peterman's bull.
- The boys cut wood for the stove, cooked the syrup, etc. Sture worked for F. Lundsten. They are building a new barn for W. Maetzold. I top-grafted cherry trees and plum trees. Today we had a strong storm with much wind.
- 9 Today it rained and snowed the whole day. We did only a few small jobs out in the carpenter shop.
- 10 Even today it has snowed almost the entire day, so we again did only a few small jobs. In the forenoon, Sture and Carl went to the Waconia depot with butter and brought the mail home with them.
- 11 Today it is great weather with lots of sunshine. In the afternoon Sture and I went to the Waconia market and the Alliance meeting. The other boys worked at the syrup camp. The sap is running good, so they have gathered over 100 pails. Most of the snow melted today. Yesterday I received 200 pear seedlings from Charles Hawkinson in Minneapolis.
- 12 **Sunday** The remaining snow melted today. The roads are so wet and muddy they are almost impossible to travel on.
- 13 Carl went to the Watertown market to try to sell the white horse. The other boys gathered the maple sap and cooked the syrup. In the afternoon, Sture and I made over some Peerless apple grafts that the rabbits had destroyed.
- 14 Today we began to sow the wheat. Carl sowed the large part of the south field and in the afternoon, Frank harrowed it in. Axel cut stovewood and gathered sap. I waxed the new grafts that we had to make because the rabbits destroyed the old ones, and then I made some more apple and plum grafts. Sture is building on W. Maetzold's barn. We are having beautiful weather.
- 15 Carl finished seeding the large piece of the south field, and then sowed on the field by Peterman's land. Frank harrowed in the forenoon in the garden where we will seed alfalfa clover, and in the afternoon he harrowed in the wheat. Axel gathered maple sap and made syrup. I top-grafted apple trees. Sture worked for W. Maetzold. Beautiful weather.
- 16 Carl and Frank sowed oats and wheat on the other side of the track. Axel sowed alfalfa in the garden and gathered maple sap. I top-grafted Peerless apple trees. Hubbard from Waconia was here and bought four trees. Thorpe bought seed wheat. Sture worked for Maetzold. It is windy with showers today.
- 17 Carl sowed wheat on the five-acre piece of the south field and seeded part of the field by the barn. Frank harrowed the wheat and then harrowed in and rolled the alfalfa in the garden. Axel gathered maple sap and did various other jobs. I top-grafted Peerless apple trees. Dahlstrom from Minneapolis is here. In the evening we had a meeting and Dahlstrom preached. It is beautiful weather.
- 18 Carl finished seeding the field by the barn and then sowed the piece where we had the grain stacks—that finished the seeding. Axel and Frank dug up Russian poplars that I am sending to Hawkinson at Rose Hill. I pruned and heeled them in last fall. The boys also gathered

- maple sap. Dahlstrom is here. Beautiful weather with no wind.
- 19 **Sunday** Dahlstrom preached.
- 20 Frank and I packed the poplars for Hawkinson at Rose Hill. Axel and Carl gathered sap and made maple syrup. In the afternoon Carl took a load of wheat to the Victoria Station. Dahlstrom went along, as he went home to Minneapolis. It rained quite hard in the afternoon. Freed came and will stay overnight with us.
- 21 In the morning it was still raining, so we could not do any work. In the afternoon Frank and I went to the Waconia depot with three bundles of Russian poplars and sent them to Hawkinson in Minneapolis. There were 80 trees in the bundles. Axel and Carl took the spouts out of the maple trees and then repaired some fence, etc. Yesterday we finished up the last of the maple syrup. We made around 60 gallons.
- Axel and Carl laid a piece of fence by the hog pasture and then set out ash trees along the road, and then they set out Cuthbert raspberry bushes. Frank helped me in the orchard. He took away and heaped up dirt around the one- and two-year-old grafts and then he dug up ash trees. I took up the heeled-in apple trees and took away the boxes around the apple trees.
- 23 Carl finished the harrowing in the barn field and then went to Victoria with a load of wheat. Axel, Frank, and I worked on various things in the orchard. We set out pear seedlings, plowed, harrowed, made grafts, fanned wheat, etc.
- 24 Carl hauled a load of wheat to Victoria. In the afternoon Carl and Frank each hauled two loads of wheat to Victoria. Axel and I set out many kinds of ornamental trees and fanned wheat.
- 25 Carl took the white horse to the Chaska market but did not sell it. Frank rolled the grain fields all day. Axel uncovered the grapevines. I set out pear and plum grafts. In the evening a book agent from the Carver settlement by the name of Edward Arveson came here and will stay over Sunday. Even a relative of mine, Andrew Johnson from Leenthrop parish, came here this evening.

- I set out apple grafts, etc. The boys cultivated and plowed and did various other jobs. In the afternoon, Carl rolled the field by the barn. In the afternoon, Andrew Johnson from Leenthrop was here. He came from P. D. Anderson's and he went back there again and tomorrow he will return to Leenthrop. On April 18<sup>th</sup> we finished the seeding. On the large piece of the south field, we sowed 17 ½ bushels of bluestem wheat on 11 ¼ acres; on the field by Peterman's land, 3 ¼ bushels of bluestem wheat on 2 ½ acres; on the 5-acre piece of the south field, 6 ¼ bushels of Scottish Fife wheat on 4 ¾ acres; on the old part of the field by the barn, 6 ½ bushels bluestem wheat on 5 ¼ acres; on the new part of the same field, 2 ¾ bushels bluestem on 2 ¾ acres. On the other side of the tracks we sowed 11 ½ bushels oats on 6 ⅓ acres; on the same field 1 ½ bushels on 1 ⅓ acre. Altogether we have sowed 37 bushels of wheat on 27 ½ acres and 11 ½ bushels of oats on 6 ¼ acres, with a total of 34 acres.
- 28 Axel and Carl planted potatoes by the old hog pen and burned off the swamplands. Frank

- helped the womenfolk with the sheep shearing. I set out apple grafts and did various other small jobs.
- 29 First thing this morning, N. Swenson was here and castrated the lambs. I set out the last of the apple grafts in the afternoon. Carl went to Waconia and had "Rock" and the mare shod. The other boys worked by the poplar trees. In the afternoon they hauled manure onto the field where corn is to be planted.
- 30 The boys hauled manure from the hog pen to the home field where corn is to be planted. I set out apple trees, etc. Today we took the mare to B. Nilson's stud and she took him also.

## May

- 1 Axel and Carl hauled manure. Frank planted ornamental trees by the schoolhouse and by the church and also brought home the mail from Waconia. I set out apple trees and did various small jobs.
- Axel and Frank hauled manure. Carl hauled manure for F. Lundsten. I set out the last of the apple trees. Sture is working steadily for F. Lundsten. It is cold and very dry. We need rain or snow.
- 3 **Sunday** Today the student, Linder, spoke to us for the first time.
- 4 Carl plowed the home field for corn. Axel and Frank planted poplar and willow cuttings and did various other jobs. It is very dry and cold. Last night the water froze as thick as window glass.
- 5 Carl and Frank plowed on the home field and used both teams of horses. In the afternoon, Carl and Mamma went to Waconia. Axel dug up quackgrass roots in the home field. I tied up grapevines and did various other small jobs. The weather is still cold and very dry.
- 6 First the boys dug up quackgrass roots and then they harrowed and rolled the home field. In the afternoon they plowed the newly broken part of the home field for corn, potatoes, and sugar beets. Axel planted potatoes. I finished tying up the grapevines.
- The boys marked the home field for corn and also marked the newly broken field and then planted potatoes. I got things ready to make soap and then I fixed up the sheep and hog barns. P.D. Anderson came and got poplar cuttings.
- 8 The boys plowed, harrowed, and rolled the square field for corn, and Frank planted corn on the home field. I planted grape and willow cuttings, etc. In the evening a man by the name of Gregg from St. Paul came and stayed overnight. He is traveling with the Farmers' Alliance business. We took "Rose" to Peterman's bull.
- Axel rolled the field. Frank planted corn on the square field and the newly broken field and now they have finished planting corn. Carl and I went to the Waconia market and then to an Alliance meeting. We chose Harris in Chanhassen to be our delegate to the convention in Cincinnati. It has been windy and hot the last few days. This morning we had thunder, but tonight it is very cold.

# 10 Sunday

11 P. D. Anderson, J. Lundsten, and I went to John Nelson's to visit and have a business

- meeting. Frank harrowed the newly broken field in the meadow. Axel did various jobs and Carl went to Watertown and sold the white horse for \$60. We took the mare to B. Nilson's stud for the second time but she would not take him.

- 21 **Sunday** Sandell from Minneapolis preached in Scandia today.
- 22 The boys hoed corn. Around midday, the well driller came here. It was not Peter Hubbard, but his brother. I finished pruning the grapevines. Mrs. Erickson from Lincoln is here with us. Yesterday we had a heavy rain shower.
- 23 Sture and Carl each hauled two loads of wheat to the Waconia mill. The well driller is working on the well. Axel and Frank hoed the sugar beets. I made a box in which to haul live hogs to Carver.
- 24 Last night we had very heavy rain. It was still raining this morning and into the afternoon. In the afternoon they worked on the well. Carl and Frank went fishing. Axel and Ida went to Waconia and I hoed around the evergreens. Mrs. Erickson went to Scandia today.
- Axel and Carl went to Carver with the white sow and sold it. Frank planted sugar beets and hoed. I also hoed. The well drillers worked on the well. Sture and Emma went to Waconia. She went to Bardwell's house in Excelsior to sew for them. Sture took the mare to B. Nilson's stud again but she refused to take him. It is very likely she is pregnant since the first time she was bred. Caroline Anderson and Alice Norman were here.
- 26 Carl cultivated the corn. Axel and I repaired the bridges in the meadow, etc. I hoed in the garden. In the afternoon, Axel, Frank, and I pulled the pump and bricks from the well on the southern forty [to reuse]. Today, Elsa's brother's daughter, Olivia Ingeman, came here for a visit. N. Swenson castrated our pigs today.
- 27 Today it has rained many times, so we have not done very much. In the morning, the boys pulled up more bricks from the well on the southern forty but they had to leave about five feet of bricks as the well threatened to collapse. In the afternoon Carl drove Olivia Ingeman to Waconia as she continued her journey home. The other boys picked potato bugs. Sture went fishing.

- 29 The boys cut and mowed the hay in the home field and around the house and the clover in the west meadow and after, they cultivated. This morning, Mamma and I went to St. Bonifacius and bought sugar, etc. In the afternoon I hoed. Today there is very much moisture in the air and it is cold and cloudy.
- 30 Today we filled in the well on the southern forty and dug a new well in the swamp. In the afternoon I hoed by the Russian poplar cuttings.

### July

This morning we finished digging the well on the south swampland and lined it with brick. In the afternoon Carl plowed in the corn. Frank plowed in the creek and by the grapes, etc. I did various small jobs. It has rained a little a couple of times today.

- This morning Carl cultivated the corn. Frank turned the hay, etc. I repaired the rakes. In the afternoon, Carl and Frank, together with Mamma, raked the hay and hauled it in. I went to Waconia and had the mower repaired. Axel is not well. In the afternoon, Emma returned home from the Bardwell's house and Alice Bardwell came along with her.
- The boys mowed and cut the alfalfa in the garden and then they hoed. In the afternoon Carl went to Scandia and set up tables and benches. I trimmed grapevines. In the afternoon Alice Bardwell went home. It is warm today.
- 4 Today we had a celebration in Scandia. It was very nice weather and there were many people who came out from Minneapolis.

- 6 First we hauled in the alfalfa from the garden and then it started to rain. It rained quite hard the rest of the day.
- This morning Carl went to Waconia and had the horse "Frank" shod. He had the well driller with him home. Axel and Frank broke the strip of ground by the old hog yard. In the afternoon Carl and Axel mowed and cut the hay on the west meadow. Frank worked by the well. I cut blight from the apple trees.
- 8 The boys plowed and hoed in the garden and in the sugar beets. Then they moved out by the island. I did various jobs. Frank and the well driller worked on the well. Sture is working on Swanberg's home building.
- 9 In the forenoon Carl mowed on the other side of the track. Axel turned hay, etc. Frank worked on the well until 10 o'clock and then he raked hay. The other well driller came and took Frank's place. In the afternoon the boys hauled in the hay from the west meadow and the island. I hoed in the garden all day.
- 10 In the forenoon, Carl broke the timothy strip on the island. Axel and Frank cultivated the corn. In the afternoon, they hauled in the hay from the other side of the track. The well drillers worked on the well and I hoed in the garden.
- 11 In the forenoon, Carl broke land on the island. Axel cut hay. Frank had "Mag" shod in Waconia. The well drillers broke something on the machine early in the morning, so they went to Waconia. In the afternoon the boys mowed and cut hay. I went to the Alliance meeting in Waconia.

- 13 The boys mowed, cut, and hauled in hay and also hoed in the garden, etc. The well drillers worked on the well. I hoed in the garden.
- 14 The boys plowed the corn, hauled in the hay, and hoed. I went to Maple Hill to get twine. Mamma and Mrs. Erickson went along as far as John Nelson's, where they stayed and visited. The well drillers worked on the well, but again they broke the drilling point.
- 15 The boys mowed, cut, and hauled in hay. The well drillers worked on the well. I cut weeds in the forest and by the old hog pen and pulled up thistles that have become a troublesome weed. In the afternoon a man from Minneapolis by the name of Mortenson came here. He will stay overnight.

- 16 The boys mowed, cut, and hauled in hay. The well drillers are working on the well. I did various jobs.
- 17 Today the well drillers decided it was no use to drill any deeper for water in that place as there is still no sign of water even though they are down 300 feet. They decided they would try a place along the driveway by the cabbage beds. This morning Carl dug out the hole for the new well drilling place. Axel and Frank fanned two loads of wheat and hauled it to the Waconia mill. In the afternoon, Frank helped to screw apart the pipes by the old drill hole. Axel and Carl hauled home hay from the island. I did various small jobs.
- 18 In the forenoon, Frank and Carl fanned two loads of wheat and hauled it to the Waconia mill. In the afternoon they plowed in the corn. Axel helped to pull the pipes out of the well. Yesterday and today Glashan had three men working on the well. I did various jobs.

- 20 In the forenoon, Axel and Carl cut hay by the island. Frank broke sod. I went to Waconia and bought meat. In the afternoon, the boys hauled home hay, etc. We have invited all the older members in the church to come here for a farewell party in honor of Sister Anna Greta Erickson from Lake Crystal. She is leaving us early tomorrow morning to go home.
- 21 Mamma and I drove Sister Erickson and her granddaughter, Mrs. Wolf, down to Shakopee, where they took the train home to Lake Crystal. Mamma and I returned home by way of Carver. The boys mowed the alfalfa for the second time and then cultivated and hoed. In the afternoon at 4:30 the other well drillers arrived.
- 22 The boys hauled home the hay from the southwest meadow and they also stacked it. In the forenoon, Carl went to Waconia with a load of wheat and had the mare shod. I cleared off brush by the old hog pasture. The well drillers worked on the well.
- 23 In the forenoon Axel, Carl, and I cut hay on the graveyard and on the schoolhouse lot. At noon we had a hard rain shower, so in the afternoon we did various other jobs. The well drillers worked on the well.
- 24 In the forenoon Mamma and Carl went to St. Bonifacius and sold chicks. Axel and Frank did various jobs. In the afternoon the boys hauled in the second crop of alfalfa. I did nothing as I am not well. Last night a book agent from Winona was here and I bought a book for \$2.25 from him. The well drillers worked on the well.
- 25 The boys hoed in the garden and grubbed out white oaks on the island to use for posts for the windmill. I cut weeds by the walnut trees and cut blight from the trees. The well drillers worked on the well. In the afternoon Pettijohn and his wife were here for a visit.
- 26 **Sunday** In the afternoon Rev. Linder preached at the Watertown Covenant Church and our young people went along and sang.
- 27 The boys hauled home the hay from the graveyard, cultivated and hoed, etc. I did various jobs. In the afternoon Emma and Mrs. Pettijohn went to Excelsior. Emma is to sew for the Morris's family.

well.

- 29 The boys hauled old straw and put it on the Canada thistles in the hog pasture, etc. I hoed and sprayed tobacco water on the lice on the apple trees. The well drillers worked on the well.
- 30 The boys fenced around the place where we will stack the grain and did various other jobs. Frank went to the Waconia mill with the grist. I hoed and did several other things. The well drillers worked on the well. The one man's name is Henry Schepers and his partner is George Newcomb.
- 31 The boys reaped the wheat on the five-acre piece of the south field. I hoed, etc. The well drillers found water at 177 feet.

### August

In the forenoon it misted. The boys did various jobs. We did not continue reaping the wheat as it is not ripe. Axel and Frank hoed and Carl went fishing and also went to Waconia. I hoed, etc. Sture is still working on Gerdsen's house. The well drillers are continuing working on the well, but something went wrong, so they went back to Waconia around 3 in the afternoon.

- 3 The boys reaped wheat on the large part of the south field. The well drillers worked on the well. I cut weeds along the road, and on the north marsh by Peltz's land. I also helped the well drillers.
- 4 The boys finished reaping the wheat on the large part of the south field. In the afternoon they reaped the oats on the other side of the track. The well drillers worked on the well and I helped them. The smith, Nyberg, came here to visit.
- In the forenoon, the boys finished reaping the oats and also the wheat on the other side of the tracks and in the afternoon they reaped wheat on the field by the barn. The well drillers, Henry Schepers and George Newcomb, set the pump into the well and finished around noon. The well is now finished and we can pump water. The well is 180 feet deep, but I will pay for 186 feet as the pump adds another 6 feet. Henry Schepers said the water is 45 feet high in the well. In the afternoon, the well drillers went home and Nyberg also left.
- The boys reaped the wheat on the barn field and also where we will put the grain stacks and finished by 3 o'clock in the afternoon. I cut thistles on the north forty. In the afternoon, Frank and I went to Waconia and paid Frank Glashan for the well drilling.
- 7 The boys hauled and stacked wheat. Emma and Mamma helped with the stacking. Rev. Frank Peterson and his wife from Minneapolis were here for a visit. I did nothing as I am not well.
- The boys, along with Emma and Josephine, stacked wheat. Sture is stacking at Lundsten's. I did various small jobs. The temperature today is at 95 degrees and the last couple of days it has been 90 degrees. Today the cow, "Betty," calved.
- 9 **Sunday** Rev. Linder went to Watertown and preached in Peter Monson's church. Our

- young people were also there and sang.
- 10 The boys and girls stacked wheat and oats. I did various jobs. Beeman from Excelsior was here to get a load of corn.
- 11 The boys and girls finished stacking the oats and then made one stack of wheat on the barn field near the hog yard. I hoed a little by the evergreens, but I am not well.
- 12 The boys and girls stacked wheat. In the forenoon, Mamma and I went to Waconia.
- 13 Today Carl went to Maynard to thresh with Arneson's threshing machine. Axel drove him to Cologne. Frank, Emma, and I stacked the last of the wheat. Brand from Faribault was here today. Sture stacked wheat for G.B. Nilson. In the afternoon, Axel and Frank cut weeds, etc.
- 14 The boys hoed the sugar beets and carrots, etc. The girls helped them hoe. I weeded in the strawberry patch and in the afternoon, Frank mowed the clover in the west meadow. We have dry weather.

The womenfolk and I turned and cocked the hay in the northern orchard and around the house, then I cut hay around the walnut trees. Professor Green from St. Anthony Park was here today and put mosquito netting over the hybridized flowers. The butcher's hired man from Excelsior came to get the bull. The bull has been here for two weeks and two days.

## July

- Before noon, the boys worked on the road with the horses. In the afternoon, they hauled a load of hay from the northern orchard, then it rained the whole afternoon. The butcher, Torman from Excelsior, came and bought five lambs.
- 2 It has rained almost the whole day so we did nothing. It rained even last night.

# 3 Sunday

- We had a celebration in Scandia. Many were here from Minneapolis. Nils Olson from Chicago was with, but he left for home in the afternoon.
- 5 The boys mowed the clover in the western meadow and along the road, which they will take when they go and milk the cows, and cultivated one load of hay. The butcher from Excelsior was here and bought sheep.
- 6 Mamma and I went to Waconia and then to John Nelson's for a visit. The boys cultivated and then hauled in a little hay.
- The boys mowed and cut on the other side of the track and hauled in the clover from the western meadow, etc. I did various jobs.
- 8 First, they moved and cut the rest of the hay on the other side of the tracks in the other meadow, then they turned the hay in the meadow they cut yesterday, then they hauled home the timothy and alfalfa (it was three loads).
- Today, we hauled home three loads of hay from the other side of the track in the southern meadow, cultivated the corn and hoed, and pruned grapevines, etc. John Nelson's women were here for a visit.

### 10 Sunday

- 11 The boys first hoed and cultivated the corn, then they cut with the scythes and the machine in the western meadow. In the afternoon, they hauled in hay. I trimmed the grapevines. Mrs. Mix from Excelsior was here for a visit. It is quite warm weather.
- 12 The boys mowed and hauled in hay. I hoed in the orchard and did other various jobs. It is quite warm weather.
- 13 The boys mowed, cut hay with the scythes, and hauled in the hay. I hoed and did various other jobs. Mrs. Mix from Excelsior was here overnight and she went home, in the afternoon, on the train.
- 14 Before noon, the boys hoed, mowed, and cut with scythes. I hoed, etc. In the afternoon, it rained. A traveler from Sibley County by the name of Beebe was here last night.
- 15 The boys hoed and hauled in hay. I hoed in the garden, etc. It is beautiful weather.
- 16 First, Frank went to Augusta and met Sture, Christine Anderson from Maynard, and a schoolteacher from Hastings. S. Booth was also with. In the afternoon, we went to a meeting in Scandia. We hauled in two loads of hay. In the evening, I went to a school meeting.

### 17 Sunday

18 First, I went to Waconia and had "Rock" shod and I bought a trunk for Emma. Sture and the other folks from Maynard rode along with me as far as Broberg's house. They took a ride on the steamboat and then went and visited John Nelson's folks. Axel and Frank cut the hay

- along the roads with the scythes. The traveler, Beebe, from Sibley County, who was here last week, was here again last night. This morning, we had a very hard shower with thunder. This day has been uncomfortably warm and muggy weather; it is almost impossible to breathe.
- 19 Today, in the morning, the folks from Maynard had intended to start for home, but there came a heavy rain, so they could not leave the house. In the afternoon, Frank and I went to the church and cut the hay, took away some of the dirt from around it, and pulled out the weeds in the stalls. The Maynard folks went to Broberg's and went fishing.
- Today, at seven o'clock in the morning, the Maynard folks went to Cologne and then on the train home. Emma went with them. Frank drove them. In the afternoon, Axel drove Miss Taper to Victoria, where she went home to Hastings, then the boys hoed the sugar beets. I cut hay along the road the whole day. It is very hot and there is a feeling of thunder in the air.
- 21 The boys cut and mowed, hauled, and stacked hay. I cut the strawberries with the scythe and turned the hay in along the road. It is over 90 degrees out. I cannot do much, for it is too hot.
- 22 Before noon, Mamma and I went to Waconia. The boys mowed and cut the home meadow in the southern field. In the afternoon, we hauled home the hay from the western meadow and hauled in the hay from the road.
- 23 Before noon, Frank went to Waconia with a load of wheat and had the mare shod on the front feet. Axel hoed by the corn. I cut weeds. In the afternoon, we hauled in the hay from the road.

- 25 Before noon, Frank went to Waconia with a load of wheat. I went to St. Bonifacius with a keg of syrup that I am sending to Maynard. Axel cut. In the afternoon, Frank mowed the new timothy around the oak tree by the track. I did various jobs. It is quite warm weather and oppressive.
- 26 Last night and this morning, we got quite a bit of rain. Before noon, the boys fanned wheat. I cut weeds. In the afternoon, Borrow Nilson and I went to Maple Hill and bought binding twine to tie the wheat from Adam Hall. The boys fished and cultivated. In the evening and night, a pouring rain came with strong thunder and lightning.
- 27 Before noon, Frank and I cut weeds out in the woods. Axel went to Waconia for the mail. In the afternoon, I cut weeds. Axel cut along the road and on the field. Frank made gates. The ground is overflowing with water and the meadow is like a lake.
- 28 The boys and I finished the gates and we hung them between the barnyard and fields. Frank also went after the mail.
- 29 Before noon, Frank went to Waconia with a load of wheat. Axel, Mamma, and I turned hay, etc. In the afternoon, we raked together the hay, timothy out from the oak, and hauled it in. Today we got a letter from Emma that the store in Maynard burned down. Today "Betty" calved. Today is beautiful weather.

30 Before noon, Frank went to Waconia with a load of wheat. Axel and I raked the hay out of the water by the oak. In the afternoon, the boys mowed and cut the second crop of alfalfa in the garden. I did various jobs.

# 31 Sunday

## August

- 1 Mowed and cut clover. Hauled a load of hay, built a bridge by the island, etc.
- 2 Hauled in the clover from the garden, hauled in the new timothy by the island. Cut weeds down in the garden in the meadow.
- 3 The boys pulled up wild oats, and then hauled in the clover down in the garden, etc. I cut weeds down in the garden and did other jobs. Today the preachers, Salquist and Samuelson, moved to our house.
- 4 Mamma and I went to Swanberg's funeral, but we did not go to Gotaholm. The boys cut around the island and hauled home the timothy from the island.
- 5 Last night we got a huge rain with strong thunder. Before noon, the boys cut hay around the island. In the afternoon, Frank went to Minneapolis to get a hired man to help with the wheat harvest. Axel and I did various jobs.
- Before noon, Axel and I went to Waconia and sold a calf. Ida was with. In the afternoon, we hauled home hay from the island. It is very warm. In the evening, Frank came home from Minneapolis with the hired man, but he fooled him and never came.
- 7 **Sunday** Samuelson preached in Scandia and Salquist preached in Watertown at the free church.
- 8 Before noon, the boys set up the reaper. I went to Waconia and hired Bergren to work for a month during the wheat harvest. In the afternoon, it rained. I am not well and even Frank is not well.
- 9 Before noon, Axel and I repaired the fence in the western meadow. Frank finished putting the reaper in order for the reaping. Today, E. Bergren began to work for a month for us. In the afternoon, they began to reap. When they had reaped a few turns on the large piece in the southern field, it began to rain, so they had to stop, then they went fishing and got a lot of fish.
- 10 Today the boys and Bergren reaped the wheat in the southern field. Today, it has not rained. I cut weeds in the garden. Salquist and Samuelson went fishing.
- 11 The boys and Bergren finished reaping the wheat on the large piece and began to reap the oats on the five-acre piece. I cut weeds and did various other jobs.
- 12 The boys and Bergren finished reaping the oats and began to reap the wheat on the square piece. I cut weeds and did various other jobs.
- 13 Last night, we got a big rain, again. Before noon, the boys and Bergren shoveled the manure away from the stack place. In the afternoon, they reaped the wheat in the home field and on the place where we stack grain.
- 14 **Sunday** Samuelson preached. In the afternoon, there was a funeral for a child of Nathaniel

- Bergquist of Minneapolis.
- 15 The boys and Bergren reaped the wheat in the field by the barn. Today, the preacher Samuelson traveled from here to his home in Chicago. I cut and hoed weeds. The oppressive heat continues; it is more than 90 degrees.
- 16 The boys and Bergren reaped the wheat in the field by the barn and began a little before dark to reap the wheat on the other side of the track. The preacher Salquist went from here today to B. Nilson's to stack wheat.
- 17 The boys and Bergren reaped the wheat on the other side of the track. I did nothing. I am not well.
- 18 Before noon, I went to the Waconia depot with butter and sent it to Wilson at the St. Louis Hotel, and had "Rock" shod. The boys and Bergren cradled the wheat in the field by Peterman's land. In the afternoon, they reaped the oats in the home field in the west end along the creek. They could only reap from one side as it had fallen down.
- 19 Today, we began to stack the oats and three loads of wheat and took off the rest of the wheat by the barn field. Frank stacked. Bergren gathered up the bundles. I drove. Axel pitched up the bundles on the load and Mamma loaded them.
- 20 Today we stacked an oat stack and some wheat.
- 21 Sunday
- We stacked wheat from the home field and a part from the southern field. Pernilla Morten from Minneapolis and her daughters were here for a visit.
- 23 Today, we stacked two stacks of wheat by the hog pen by the barn field. The wheat was very bad. Before noon, I went to Waconia.
- 24 They stacked wheat from the large piece in the southern field. Mamma is the *nodding crow* or the driver most of the time because I am not well. Josephine loaded the bundles on the wagon.
- 25 Before noon, they stacked a large stack of wheat from the barn field. In the afternoon, they stacked in the field by Peterman's stack of wheat on the other side of the track.
- We stacked the wheat on the other side of the track. Today I am well, so I was the *nodding crow*. In the afternoon, Mamma went to Waconia.
- 27 Before noon, we stacked wheat by Peterman's stack. In the afternoon, we stacked the last of the wheat by the barn field. We have now finished the stacking, but we have not finished stacking the wheat by the island. We are unsure if we can reap there, because it is so wet. It has been a hard harvest time this year because the fields have been wet from how much rain we have had. Frank has stacked all the grain, but he is tired out from the loose, blowing straw. He has done a good job of stacking so that no rain can get through them.
- 28 **Sunday** P. Freed was here for dinner.
- 29 Last night and today, it has continued to rain. Axel and Bergren fanned wheat. Frank wrote a letter for me to Underwood in Lake City, one to Latham in Excelsior, and one to Sture in Maynard. We packed a barrel of apples to send to Brainerd.
- 30 Before noon, Frank went to St. Bonifacius with a barrel of apples that we are sending to

- Maynard. Axel and Bergren threshed beans. In the afternoon, we went to Waconia and heard a political speech by Ignatius Donnelly. Today it is clear weather with a cold wind.
- Axel went to Peterman's and threshed. Frank mowed the clover in the west meadow and then mowed and cut the hay around the house and the hog pen. I am not well. Clear and beautiful weather. Bergren threshed for Joseph Broberg for me.

# **September**

- 1 Axel and Frank threshed for Sam Peltz. The womenfolk and I picked and packed apples for the State Fair. I am not well. Bergren threshed for Joseph Broberg for me.
- Axel and Frank threshed for P.D. Anderson. Bergren threshed for Joseph Broberg before noon and in the afternoon, Bergren threshed at P.D. Anderson's. Frank came home and hauled in the clover from the west meadow. The womenfolk helped him. Frank also cocked the hay around the house. I am not well.
- Before noon, Frank and I went to Waconia. I sent a box of apples by express to the State Fair (twenty varieties of apples for collection and also apples for ten plates). Axel cut hay around the house. In the afternoon, Frank and Axel mowed and cut the hay in the orchard. Bergren threshed for August Nelson on Swanberg's farm.

## 4 Sunday

#### **GLOSSARY OF TERMS**

Ash house (woodshed): A place to store wood for the stove in the house. Ashes were kept as well. Ashes were used both in the garden to control pests, and in the soap-making process.

Barrow: A castrated pig.

*Black besattning:* Birch sap boiled down to a tar. It was used to paint the roof of a building to waterproof it. It was and is still used to paint the underside of a boat for the same purpose.

Brush scythe: A scythe used to cut brush.

Bushel: Bushel baskets hold the equivalent of four pecks or eight gallons of dry goods. See peck.

*Chaff:* Dust/dirt and leftover small particles from the process of threshing, flailing or any other harvesting process.

*Chink:* Chink or chinking refers to the small pieces of wood used to fill spaces between the larger logs of a log building. Not to be confused with daubing which is the mud that is placed between the chink and logs. See *daub*.

*Chopper:* A farm implement which chops things (generally grain stalks) into smaller pieces, making the stalks easier for animals to eat. The items once chopped are termed fodder or food for the animals.

*Cistern:* A deep hole dug manually in which water could be held for future use. A cistern was used to hold soft (rain) water as compared to water from a well which is termed ground (hard) water because of the mineral content.

*Claim:* A land claim is a legal declaration of desired control over a piece of land. Peterson refers to a person's claim, meaning it was where the person lived or place of residence. The Homestead Act of 1862 was active then and how settlers earned land ownership, by a residence of five years plus improvements, then "proving" their claim in court.

*Clevis ring:* Also called a clevis fastener. Still used today, a clevis ring is a three-piece fastener system consisting of a clevis, clevis pin, and tang. The clevis is a U-shaped piece that has holes at the end of the prongs to accept the clevis pin. The clevis ring is similar to a bolt, but is only partially threaded or unthreaded with a cross-hole for a split pin.

Club wheat: A type of hard wheat.

*Cock hay:* Also referred to as a hay stack or a shock (high mound) of hay. A cock or shock could be made of any grass, hay or grain stalk. See *shock*.

*Cord:* A cord is a measure or amount of wood. It corresponds to a well-stacked woodpile four feet high, eight feet wide and four feet deep.

*Cradle:* Short for cradle scythe. A cradle scythe is composed of a long handle, long curved blade and long wooden teeth (cradle) which catches the grain after it is cut. The full motion termed cradling cuts the grain, lays it on the wooden teeth, then as the worker continues moving the cradle over his/her shoulder, the grain falls into a pile. A scythe will cut the grain but will leave it where it was cut, necessitating it to be raked.

Crib: A place to store grain. In modern times, cribs are typically made of metal.

Cultivator: A piece of farm machinery used to remove weeds from between field crop rows.

*Dalecarlian:* Peterson uses this term to refer to a person who spoke a language spoken in Dalarna County, Sweden.

*Daub*: Mud/manure/straw/clay mixture used between the chinking and logs during the construction of a log building.

Depaternade meeting: A meeting designed to lobby for something.

*Dovetail:* The type of cut at the corners of a log building.

*Drag:* A farm implement pulled across a field to level it and cover the seeds.

Dressing (e.g. the sofa, the pillows): A case or covering designed to dress something up, such as a pillowcase or a cover on a sofa.

*Evener:* A wooden bar attached at the center of the hitch on a wagon, carriage or plow. It is hooked at either end to the traces of the horse's harness. The function of an evener is to balance the weight being pulled.

Farrow: A term used to describe a pig's giving birth or one which has newly given birth.

*Flail:* A flail is a tool used to beat the stalks of grain to remove the grain from the stalk. A flail is made of two pieces of wood, connected by leather and looking like a nunchuck. The process of removing grain from the stalk with a flail is called flailing.

*Fro:* A froe (or frow), shake axe or paling knife is a tool for cleaving wood by splitting it along the grain.

*Geld*: To neuter a male horse. A neutered male horse is called a gelding.

*Glaze:* The white putty used to glaze a window. Glazing forms a weathertight seal between the window's glass and wood.

*Graft:* A shoot or twig inserted into a slit on the trunk or stem of a living plant. Peterson was famous for his grafting of apple trees. The process formed a newer, better type of tree. This method was used to find and work toward a winter-hardy apple tree.

*Grange:* A farmers' group organized in 1867 in Minnesota, due to efforts of Oliver Kelley to bring the organization to Minnesota. This was part of a larger national organization, the National Grange of the Order of Patrons of Husbandry, founded in New York in 1867. The Grange sponsored social activities, community service, and political lobbying.

Grist: Grain that is ground to make flour.

*Grub hoe:* A basic rough, heavy hoe used to dig up soil that has not been planted prior. Primarily used in gardens or small areas.

*Half-cord:* An amount of wood corresponding to a well-stacked woodpile two feet high, four feet wide, and two feet deep.

*Harrow:* Also called a drag. A farming instrument pulled by an ox or horse across the field to break up dirt chunks and make the field more level. May be used to help cover seeds after planting.

Hay: In Peterson's early years of farming, hay or alfalfa as we know it did not exist. "Hay" was field grass that grew anywhere. Later, Wendelin Grimm would develop a winter-hardy alfalfa just a few miles from the Peterson farm. Grimm alfalfa would lead to Carver County's being called the golden buckle of the dairy belt, as the alfalfa would increase a cow's milk production.

*Hoop:* A washtub was made of wood with metal hoops surrounding it to keep it together. Hoops were also made and sold for barrels.

*Hoop stick:* The wood parts used to construct a washtub.

*Korn:* Peterson's use of the words corn, korn, and maize heavily illustrate his transition from Swedish to Svenglish to American. The word "korn" in Swedish is used to refer most often to rye, but generally the seed from any grain. In English, the word "corn" only refers to maize or American corn. Peterson uses korn until September 25, 1860. It is on that date that he begins spelling the word korn as corn with a "c". This change is significant as it indicates the beginning of his transition to becoming an American. Later, he uses the word maize and corn interchangeably.

La grippe: Influenza.

Last, boot: The bottom of a shoe or boot. A cobbler (shoemaker) would trace a person's foot and use this tracing to make a last, around which the shoe was built. A last is commonly, but not always, made of leather. A cobbler later had standard lasts made of metal he/she used as a form to make shoes in standard sizes.

Lathe: A woodworking instrument that rotates a wood piece so that the carpenter can make objects such as a bowl or a round leg of a table with symmetry.

Limekiln: A kiln in which limestone is burned or calcined to produce quicklime.

Lumbago: Pain in the lower back.

*Manse*: A Swedish word meaning a small bog or marsh. This is also the traditional word for a reverend's or pastor's house.

*Mattock:* An agricultural tool shaped like a pickax, with an axe and a chisel edge at the end of the head.

Middling: The middle part of the grain.

Orts: The small broken piece of grain left after threshing.

*Peck*: A measure of volume. Four pecks equal one bushel.

*Pipe damper:* A plate that is inserted into the pipe of a stove. A small handle outside the pipe is used to either open or close down the plate to control the airflow.

Pitch: To throw or toss.

*Poll tax:* A tax levied on all adults eligible to vote.

Psalmodikon: A single-string musical instrument.

*Quackgrass:* A type of weed or grass native to Europe, Asia, and the Arctic biomes. Quackgrass was commonly found along railroad banks since its seeds dropped from shipments of agricultural products. It is considered an invasive species today.

*Raffia:* Peterson uses the word raffia to refer to bark he removes from basswood trees to use for baskets or tying things.

Raising bee: A get-together in which a group of people would jointly raise the beams of a house, barn or other large building. "Bees" also referred to events where groups of people work together on a task, such as a quilting bee.

Rod: The rod is a surveyor's tool and unit of length exactly equal to 5-1/2 yards, 16-1/2 feet, 1/320 of a statute mile or one-fourth of a surveyor's chain (approximately 5.0292 meters). The rod is useful as a unit of length because whole-number multiples of it can form one acre of square measure. The "perfect acre" is a rectangular area of 43,560 square feet, bounded by sides of length 660 feet and 66 feet (220 yards and 22 yards) or, equivalently, 40 rods and 4 rods. An acre is therefore 160 square rods. (Wikipedia)

*Roll (soil):* A process used after seeds are planted. Rolling the soil presses the seed into the ground to prevent it from blowing away. The process helps with germination.

Sawbuck: Sawhorse.

Scantling: A piece of lumber with a small cross-section, used to make a building.

Scion: A young shoot or twig of a plant, especially one cut for grafting or rooting.

Scottish Fife wheat: A type of wheat.

*Screen (rye):* Verb: The process of removing the chaff from the grain. Noun: A screen was used to remove chaff from the grain.

Shanty: A temporary living space, generally very small and poorly made.

Shock of rye/wheat: A shock of grain is an organized pile of hay or grain. The pile is designed to allow airflow. See *cock*.

Shod (a horse): Verb. A horse is shod. After a farrier puts metal shoes on a horse, it was shod.

*Slake (lime):* The process of combining quicklime with water to produce calcium hydroxide.

Snath: Handle for a scythe.

Stanchion: The stall where an animal stands.

*Stone boat:* Peterson uses the term "sled" in the summer to refer to a stone boat. A stone boat looks like a simple low-to-the-ground sled, but is used in the summer to haul items to and from the field. It is usually pulled (dragged) by oxen.

*Sulky:* Noun. A type of wagon. It is dressier than a farm wagon and would be used to take people to town or visiting.

*Tamarack:* A type of tree. It makes cones but loses its leaves in the winter.

Thill: A shaft, especially one of a pair, used to attach a cart or carriage to the animal pulling it.

*Thresh:* The process of removing grain from the stalk. A thresher (threshing maching) is a larger machine that visited farms and could complete the threshing in a day or two. Oftentimes a person who owned a thresher would do custom threshing for area farms, moving from one to another over a period of a week, then moving to other areas. To hand-thresh would be referred to as flailing in reference to the tool used, a flail.

*Trench (grapes):* Grapes needed to be trenched in the winter to prevent them from dying. A trench would be dug and the vines laid in the trench and buried.

Varmlanders: People from the western central portion of Sweden known as Varmland.

Vestryman: The person in charge of the church parish.

Wainwright: A person who makes wagons or carts.

Walk out a line: The process of measuring out the line for a property by walking the perceived line of the property. It was a fairly accurate and very inexpensive method used to decide where a person's property line was.

*Warp:* A rug is constructed (woven) on a loom. The threads run either left and right (the weft) or from top to bottom (the warp).

Well curbing: The first (upper) part of the well which is lined with brick.

Well jack: Pump jack. Used to dig a well.

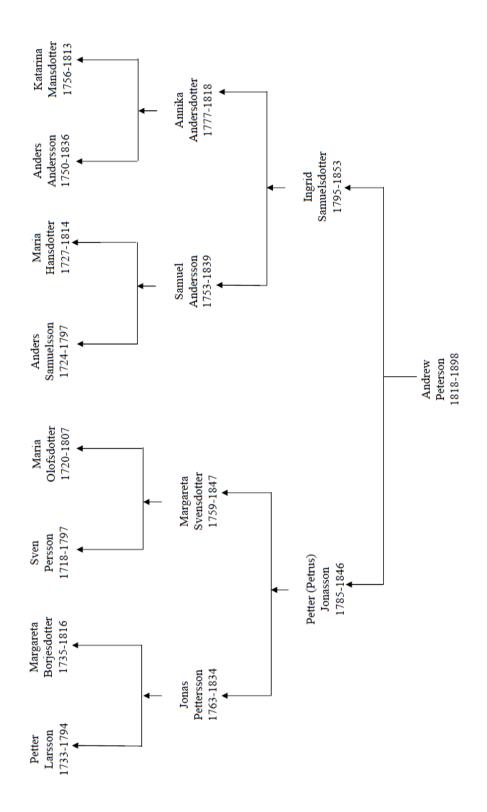

Wether: Castrated male sheep.

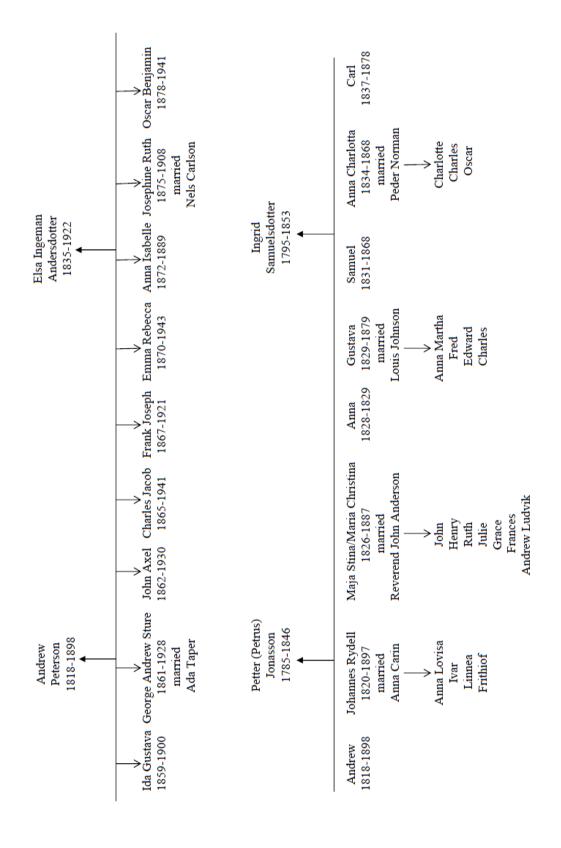

Whit Sunday: Pentecost, a Christian holy day, celebrated on the seventh Sunday after Easter.

Windlass: A type of winch used to lower buckets into and hoist them up from wells.

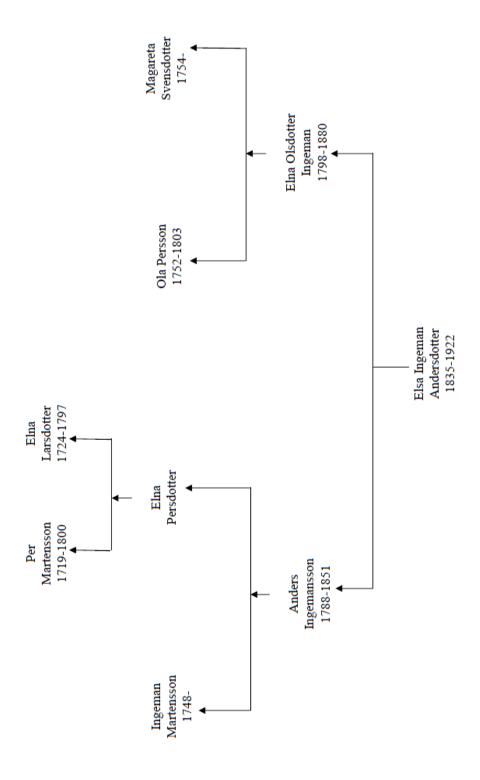

*Windrow:* A row of cut grain or hay, which is raked into the row so that it may dry before being collected and stored. Windrows are often turned to ensure even drying.
